

**Far Eastern Textile Ltd. and Subsidiaries**

**Consolidated Financial Statements for the  
Years Ended December 31, 2007 and 2006 and  
Independent Auditors' Report**

## **REPRESENTATION LETTER**

The affiliates of Far Eastern Textile Ltd. (FETL) that should have been included in the combined financial statements of FETL and its affiliates as of and for the year ended December 31, 2007 in accordance with the "Regulations Governing the Preparation of Combined Financial Statements of Public Companies and their Affiliates" in the Republic of China (ROC) are the same as those already included in the consolidated financial statements of FETL and its subsidiaries as of and for the year ended December 31, 2007. The consolidated financial statements have been prepared under the ROC Statement of Financial Accounting Standards No. 7 - "Consolidated Financial Statements." The information required to be disclosed in the combined financial statements has already been disclosed in the consolidated financial statements. Thus, preparing separate combined financial statements of FETL and its affiliates for the same period is not needed.

Very truly yours,

FAR EASTERN TEXTILE LTD.

DOUGLAS TONG HSU  
Chairman

March 10, 2008

## **INDEPENDENT AUDITORS' REPORT**

The Board of Directors and Stockholders  
Far Eastern Textile Ltd.

We have audited the accompanying consolidated balance sheets of Far Eastern Textile Ltd. and subsidiaries as of December 31, 2007 and 2006 and the related consolidated statements of income, changes in stockholders' equity and cash flows for the years then ended. These consolidated financial statements are the responsibility of the management of the Company. Our responsibility is to express an opinion on these consolidated financial statements based on our audits. However, we did not audit the financial statements of certain consolidated subsidiaries. These subsidiaries' total assets, as shown in their financial statements, were 2.08% (NT\$5,670,484 thousand, or US\$174,853 thousand) and 1.14% (NT\$2,861,515 thousand, or US\$88,237 thousand) of the consolidated total assets as of December 31, 2007 and 2006, respectively. Their total net operating revenues were 0.63% (NT\$1,026,337 thousand, or US\$31,648 thousand) and 0.10% (NT\$140,446 thousand, or US\$4,331 thousand) of the consolidated net operating revenues in 2007 and 2006, respectively. We also did not audit the financial statements of certain equity-method investees, as shown in the accompanying consolidated financial statements. The carrying values of these investments were 1.00% (NT\$2,715,202 thousand, or US\$83,725 thousand) and 1.26% (NT\$3,169,877 thousand, or US\$97,745 thousand) of the consolidated total assets as of December 31, 2007 and 2006, respectively. The Company's equity in their net loss was (0.97%) (NT\$200,641 thousand, or US\$6,187 thousand) and the equity in their net income was 0.19% (NT\$35,687 thousand, or US\$1,100 thousand) of the consolidated income before income tax in 2007 and 2006, respectively. The financial statements of the foregoing consolidated subsidiaries and equity-method investees were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for the consolidated subsidiaries and other equity-method investees, is based solely on the reports of the other auditors.

We conducted our audits in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Those rules and standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidences supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits and the reports of the other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audits and the reports of the other auditors, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Far Eastern Textile Ltd. and subsidiaries as of December 31, 2007 and 2006 and the results of their operations and their cash flows for the years then ended, in conformity with Guidelines Governing the Preparation of Financial Reports by Securities Issuers, requirements of the Business Accounting Law and Guidelines Governing Business Accounting relevant to financial accounting standards, and accounting principles generally accepted in the Republic of China.

As disclosed in Note 3 to the financial statements, on January 1, 2007, the Company and subsidiaries adopted the newly released ROC Statements of Financial Accounting Standards ("Statements" or SFAS) No. 37 - "Accounting for Intangible Assets" and related revisions of previously released Statements. In addition, on January 1, 2006, the Company and subsidiaries adopted ROC SFAS No. 34 - "Financial Instruments: Recognition and Measurement" and No. 36 - "Financial Instruments: Disclosure and Presentation" and the revisions of previously issued Statements, which were revised to harmonize with SFAS Nos. 34 and 36.

Our audits also comprehended the translation of the 2007 and 2006 New Taiwan dollar amounts into U.S. dollar amounts and, in our opinion, such translation has been made in conformity with the basis stated in Note 4. Such U.S. dollar amounts are presented solely for the convenience of readers.

March 10, 2008

Notice to Readers

*The accompanying consolidated financial statements are intended only to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such financial statements are those generally accepted and applied in the Republic of China.*

*For the convenience of readers, the auditors' report and the accompanying consolidated financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.*

# **FAR EASTERN TEXTILE LTD. AND SUBSIDIARIES**

## **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**YEARS ENDED DECEMBER 31, 2007 AND 2006**

**(In Thousands, Except Amounts Per Share)**

---

### **1. ORGANIZATION AND OPERATIONS**

Far Eastern Textile Ltd. (FETL or the “Company”), established in 1954, manufactures and sells polyester materials, semifinished products and finished goods such as cotton, synthetic or blended fabrics, towels and bedsheets, and woven and knitted garments; PET (polyethylene terephthalate) bottles and PET sheets; and natural, synthetic or blended yarns and polyester textured yarns. It also does yarn, silk and cloth printing and dyeing as well as manufactures wide-view film, antiglare film, antireflection film and other optical films.

The Company’s stock is listed on the Taiwan Stock Exchange. On October 19, 1999, the Company issued global depositary receipts (GDRs), which became listed on the Luxembourg Stock Exchange.

Following are FETL’s consolidated subsidiaries:

Far EasTone Telecommunications Co., Ltd. (“Far EasTone”) was incorporated in the Republic of China on April 11, 1997 and began commercial operations on January 20, 1998. Far EasTone’s shares began to be traded on the ROC Over-the-Counter Securities Exchange (known as Gre Tai Securities Market) on December 10, 2001. Later, Far EasTone’s shares ceased to be traded on the OTC exchange and became listed on the ROC Taiwan Stock Exchange on August 24, 2005. Far EasTone provides wireless communications, leased circuit, Internet and international simple resale (ISR) services and also sells cellular phone equipment and accessories.

KG Telecom, formerly Yuan Ho Telecommunications Co., Ltd., was incorporated in the ROC on September 25, 2003. It is a wholly owned subsidiary of Far EasTone. After its incorporation, KG Telecom merged with the former KG Telecommunications Co., Ltd. (the “former KGT”) through a two-step merger agreement. The merger was completed on May 20, 2004 after the registration of the shares with the Ministry of Economic Affairs.

The former KGT provides wireless communications services under a type I license - GSM1800 for the northern region of Taiwan issued by the Directorate General of Telecommunications (DGT). The license allows the former KGT to provide services for 15 years from 1997, with an annual license fee at 2% of total wireless communications service revenues. Moreover, the merger of former KGT with TUNTEX (with a license of 2G to provide wireless communications service under a type I license - GSM1800 for the central and southern regions of Taiwan issued by the DGT) took effect on January 1, 2000. Thus, the former KGT provided island-wide 2G wireless communications services under a type I license - GSM1800. The DGT also issued the former KGT a type I license, allowing it to provide local/domestic long distance land cable leased-circuit services for 15 years from September 2000, with an annual license fee of 1% of leased-circuit service revenues.

In 2002, Yuan-Ze Telecom received from the DGT the 3G (third-generation wireless communications system) concession, with a bidding price of NT\$10,169,000 thousand, included in intangible assets - 3G concession. On January 24, 2005, the DGT issued to Yuan-Ze Telecom a 3G license, which is valid through December 31, 2018. Through the completion of the merger with Yuan-Ze Telecom, Far EasTone became licensed to provided 3G wireless communications service and began commercial operations on July 13, 2005.

Q-ware Com. was incorporated on February 13, 2007. It mainly provides Type II telecommunications services. On February 14, 2007, the board of directors of Far EasTone approved a cooperation plan with Q-ware System Inc. (“Q-ware”) to operate WiFly and other businesses agreed upon by both Far EasTone and Q-ware. After obtaining the authorities’ approval of this agreement, Far EasTone, as a specific person, subscribed for 36,460 thousand newly issued shares (NT\$13.60 per share) of Q-ware Com. for NT\$495,855 thousand (US\$15,290 thousand) on July 2, 2007. On July 3, 2007, Q-ware spun off its WiFly business, with a net worth of NT\$349,301 thousand (US\$10,771 thousand), to Q-ware Com. and received 34,930 thousand new shares of Q-ware Com. for this spin-off. Q-ware Com. got the right to provide WiFly business in Taipei City through this spin-off until September 7, 2013, with an annual fee at 3% of total WiFly revenues. Moreover, the NCC issued to Q-ware Com. a Type II license, allowing it to provide Internet services for three years from 2007 for a fixed annual license fee based on Q-ware Com.’s paid-in capital. After the completion of this spin-off, Far EasTone owned approximately 51% of Q-ware Com.’s common stock and thus became its parent company.

On July 26, 2007, the National Communications Commission (NCC) awarded Far EasTone a license to have operations in worldwide interoperability for microwave access (WiMAX) in southern Taiwan. On August 30, 2007, Far EasTone paid a guarantee deposit of NT\$40,000 thousand (US\$1,233 thousand) and a minimum advance payment of NT\$210,000 thousand (US\$6,475 thousand) for the license fee through a guarantee provided by a bank. On October 1, 2007, Far EasTone got the NCC’s permission to start preparations for the construction of WiMAX networks.

To enhance the return of stockholders’ equity, Far EasTone’s board of directors proposed on April 30, 2007 to reduce capital by returning NT\$7,745,326 thousand (NT\$238,832 thousand) in cash to stockholders and decreasing common stock by 774,533 thousand shares. This capital reduction was approved at the stockholders’ meeting on June 12, 2007. However, since Far EasTone issued 160,370 thousand shares to exchange for New Century InfoComm Tech Co., Ltd.’s common shares held by Infocom Holding Company Pte Ltd. and SingTel Taiwan Limited on December 31, 2007, there were decreases in the capital reduction ratio from 20% to 19.204715% and in the cash return per share from NT\$2.00 to NT\$1.9204715. The paid-in capital was NT\$32,585,008 thousand (US\$1,004,780 thousand) after the capital reduction on January 15, 2008. On January 22, 2008, this capital reduction was registered with the MOEA. Far EasTone’s board of directors resolved that March 17, 2008 would be the share exchange date of the capital reduction, which had been approved by the authority.

ARCOA was incorporated in the ROC on May 4, 1981. ARCOA’s shares have been listed as emerging market stock on the OTC exchange since December 27, 2002. ARCOA sells cellular phone units and other telecommunications equipment or accessories and provides related maintenance services. The DGT issued to ARCOA a Type II license, allowing it to provide mobile virtual network operator services for three years from July 2006 for a fixed annual fee based on ARCOA’s paid-in capital.

On December 22, 2004, the Board of Directors of ARCOA decided to withdraw its stock from the OTC exchange and became a private company. Far EasTone became ARCOA’s parent company since February 2005. As of December 31, 2006, Far EasTone owns 59.10% of ARCOA’s common stock.

On February 26, 2004, Far Eastern Electronic Toll Collection Co. (FETC) was selected by the Taiwan Area National Freeway Bureau (TANFB) as the best qualified candidate for its “Private Participation in the Electronic Toll Collection BOT Project” (“ETC project”). On April 27, 2004, FETC and the TANFB completed negotiations and signed the project contract.

On February 24, 2006, however, the Taipei High Administrative Court announced its decision to revoke the status of FETC as the best qualified candidate for the ETC project. Then, on August 3, 2006, the Supreme Administrative Court ruled that the original screening process conducted by the TANFB was flawed and in violation of the principles of equality and promotion of public interest and stripped FETC of its “best qualified candidate” status. In response to the verdict, the TANFB announced a second bidding for the ETC project. On April 14, 2007, the TANFB announced that FETC was again the best qualified candidate. FETC then completed the ETC project negotiations and on August 22, 2007, signed the project contract with a term of 18 years and 4 months with the TANFB.

On August 11, 2006, The Company announced a proposal to withdraw from FETC by unconditionally donating its FETC stockholding to the Government. Far EasTone and Yuan Tong Investment Corp.'s Board of Directors approved this proposal on August 22, 2006. However, the TANFB already replied officially to Far EasTone and Yuan Tong Investment Corp. not to accept the donation on August 17, 2007.

The Company issued new shares to acquire 100% equity in Far Eastern Resources Development Co., Ltd. (FERD), a spin-off of the Company's real estate development business, including some fixed assets, nonoperating assets and farmland for investment purposes. FERD aims to carry out the following projects:

- a. Taipei Far Eastern Telecom Park Project: FERD has an approximately 73.7 thousand pings land located in Banciao. To use this property productively, FERD signed a public construction BOO (build-own-operate) contract with the Ministry of Economic Affairs of the ROC. It is the first private-development BOO project in the telecom field in northern Taiwan. The Taipei Far Eastern Telecom Park plans to recruit tenants of new generation CPE (customer premises equipment), broadband service and equipment providers, digital content service providers, and broadband equipment providers. This project has been approved by the Urban Planning Commission of the Ministry of the Interior of the ROC and is now under review.
- b. The Wugu shopping mall project: This project, which involves land rezoning so that industrial/commercial areas can be established, had been approved by the Taipei County Government and proposed to the Ministry of Interior of the ROC.
- c. The Yilan Jiaosi Resort hotel project: This project involves land rezoning so that industrial/commercial areas can be established. The project now is under a land rezoning process.

As of December 31, 2006, Oriental Resources Development Ltd. (ORDL, the former TRC) accumulated deficit had reached NT\$119,531 thousand (US\$3,686 thousand), which is over half of its capital. In their general meeting on June 30, 2006, ORDL's stockholders resolved to reduce ORDL's capital by NT\$105,780 thousand (US\$3,262 thousand) to cover its losses and increase capital in cash by NT\$50,000 thousand (US\$1,542 thousand) to replenish its working capital and thus improve its financial structure. After ORDL's capital reduced, Yuan Ding Investment corp. bought all other stockholders' outstanding shares and participated in the raising capital in cash to buy all shares. The registration was finished on August 17, 2006. Respectively on December 3 and 11, 2007, ORDL conducted a stock reduction to offset the deficit of NT\$20,000 thousand (US\$617 thousand) and a capital increase of NT\$250,000 thousand (US\$7,709 thousand). Since Yuan Ding Investment Corp. acquired 16,000 thousand shares under the premise of non-proportional investment in ORDL's increase in capital, the percentage of ownership was decreased from 100% to 70.32%.

To simplify investment structure, integrate investment resources and management, and control the subsidiaries in China, the board of directors of the Company made the resolution on December 21, 2007 to acquire the shares of the existing off-shore investment companies through subsidiaries and affiliates. Related proposal is as follows:

- a. Acquired 63 thousand shares of Far Eastern Apparel (Holding) Ltd. from Yuan Ding Investment Corp. totaling US\$34,513 thousand with each share priced at US\$546.09.
- b. Acquired 487 thousand shares of F.E.D.P (Holding) Ltd. totaling US\$49,961 thousand from Yuan Tong Investment Corp., Far Eastern Polychem Industries Ltd., and Far Eastern Polytex (Holding) Ltd. with each share priced at US\$102.65.
- c. Acquired 119 thousand shares of PET Far Eastern (Holding) Ltd. totaling US\$50,945 thousand from Ding Yuan International Investment Corp., Far Eastern Polychem Industries Ltd., and affiliate Oriental Union Chemical Corporation with each share priced at US\$426.6.

On December 21, 2007, the board of directors of Yuan Ding Investment Corp. approved the resolution that to dispose of 20 thousand shares totaling US\$16,921 thousand of Pacific Petrochemical (Holding) Ltd. to Oriental Union Chemical Corporation with each share priced at US\$858.95.

The above transactions are expected to be approved by Investment Commission (MOEA) in 2008 to finalize the transfer procedure. The actual transaction amount, however, will be adjusted by the present net value of the shares of the acquiring or the acquired companies.

Far Eastern Textile Ltd. and its consolidated subsidiaries (collectively, the “Group”) had 18,434 and 17,597 employees as of December 31, 2007 and 2006, respectively.

The intercompany relationships, percentages of ownership and major operations of subsidiaries as of December 31, 2006 are shown in Schedules A and B.

## **2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

### **Basis of Presentation**

The accompanying consolidated financial statements have been prepared in conformity with Guidelines Governing the Preparation of Financial Reports by Securities Issuers, requirements of the Business Accounting Law and Guidelines Governing Business Accounting relevant to financial accounting standards, and accounting principles generally accepted in the Republic of China. In preparing consolidated financial statements in conformity with these guidelines and principles, the Group is required to make certain estimates and assumptions that could affect the allowance for doubtful accounts, provision for loss on decline in value of inventories, depreciation and amortization, income tax and pension cost. Actual results could differ from these estimates.

For the convenience of readers, the accompanying consolidated financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language financial statements shall prevail.

The Group’s significant accounting policies are summarized as follows:

### **Consolidation**

FETL’s direct and indirect subsidiaries (i.e., investees with more than 50% of their voting shares owned by FETL) are included in the consolidated financial statements. For subsidiaries acquired during the reporting period, their revenues and expenses generated before the acquisition date need not be consolidated. If FETL loses control over its subsidiaries during the reporting period, their revenues and expenses generated after the control lose date need not be consolidated.

Yuan Ding Investment has been elected to have more than 50% of the seats of the board of directors by the stockholders of Taiwan Recycling Corp. (TRC) in their meeting on June 30, 2006. Then, on August 17, 2006, Yuan Ding Investment acquired 100% of TRC’s voting shares. Thus, TRC was included in the 2006 consolidated financial statements.

The Company held less than 50% of voting rights of these investees: Da Ju Fiber Co., Ltd., Ding Ding Management Consulting Ltd. and Malaysia Garment Manufactures PTE Ltd. in 2006. Thus, these companies were not consolidated in 2006.

All significant intercompany transactions and balances were excluded from the consolidation.

In the consolidation, the financial statements of the foreign subsidiaries are translated from their respective functional currencies into New Taiwan dollars as follows:

- a. All assets and liabilities at the exchange rates prevailing on the balance sheet date;
- b. Share capital, retained earnings and/or accumulated deficit at their historical exchange rates; and
- c. All items in the statement of income at the average exchange rates for the periods.

The cumulative effects of the above translation are included in the cumulative translation adjustments in stockholders' equity.

The entities in the "Consolidated Financial Statements of Far EasTone and Affiliates" are the same as those in the consolidated financial statements as required under ROC SFAS No. 7 - "Consolidated Financial Statements", thus, no consolidated financial statements of Far EasTone and affiliates will be compiled. That is, the information needed in the combined financial statements of Far EasTone and affiliates is enclosed in the consolidated financial statements.

### **Current and Noncurrent Assets and Liabilities**

Current assets are unrestricted cash or cash equivalents, assets held mainly for trading and other assets to be converted into cash or consumed within 12 months after the balance sheet date. All other assets such as property and equipment, intangible assets are classified as noncurrent. Current liabilities are obligations to be settled within 12 months after the balance sheet date. All other assets and liabilities are classified as noncurrent.

Far Eastern Construction Co., Ltd. (FECC) authorizes contractors to build houses for sale or rent. Far Eastern General Contractor Inc. engages in civil engineering construction. The terms of the two corporations' contracts are typically over one year. Thus, the contract-related assets and liabilities are classified as current or noncurrent depending on the terms of the contracts.

### **Cash Equivalents**

Commercial paper and bonds purchased under resell agreements with original maturities of no more than three months are classified as cash equivalents.

### **Financial Instruments at Fair Value through Profit or Loss**

Financial instruments at fair value through profit or loss include financial assets or liabilities held for trading and those designated on initial recognition as measured at fair value with fair value changes in profit or loss. The regular purchase or sale of financial instruments is recognized or de-recognized using trade date accounting.

On initial recognition, the financial instruments are measured at fair value, with transaction costs capitalized currently. Subsequent changes in fair value are recognized as current gain or loss. Cash dividends received within a year from the investment acquisition date and received in subsequent years are all accounted for as investment income. When the financial instruments are sold, the difference between selling price and book value is recognized as current gain or loss.

If derivative financial instruments do not meet the criteria for hedge accounting, they were classified as financial assets or liabilities held for trading purposes. They were classified as financial assets when the fair value was positive; otherwise they were classified as financial liabilities.

The fair values of cotton futures contracts, currency option contracts and forward exchange contracts are determined at their market quotation on the balance sheet date. The fair values of financial instruments with no quoted market prices are determined at estimated prices.

## **Available-for-sale Financial Assets**

On initial recognition, available-for-sale financial assets are recorded at fair values plus transaction costs directly attributable to the acquisition of the assets. Gain or loss due to changes in fair value is recognized as adjustments to stockholders' equity, and the related cumulative gain or loss should be recognized in the current period when the financial asset is de-recognized. The regular purchase or sale of financial assets is recognized or de-recognized using trade date accounting.

The fair values of listed securities and mutual funds are determined at their closing prices and net asset values, respectively, as of the balance sheet date.

Any cash dividends received are recognized as income on the date of the stockholders' meeting or on the ex-dividend date, but dividends declared from earnings before investment acquisition are recognized as a reduction of the carrying value of the investments. Stock dividends received are accounted for only as an increase in the number of shares held but are not recognized as investment income. The carrying amount of shares held is recalculated on the basis of the total number of shares held after stock dividends are received.

An impairment loss should be recognized if there is objective evidence that a financial asset is impaired. This impairment loss can be reversed to the extent of the original carrying value and recognized as an adjustment to stockholders' equity.

## **Held-to-maturity Financial Assets**

Held-to-maturity financial assets or instruments are measured at cost amortized by the straight-line method. They are recorded at fair value plus the instrument acquisition or issue cost, and gain or loss is recognized when they are devalued or amortized.

An impairment loss should be recognized if there is objective evidence that a financial asset is impaired. If the impairment is later determined as no longer existing or diminished, the impairment loss can be reversed to the extent that the reversal would not exceed the asset carrying amount had no impairment loss been recognized for the asset in prior years.

## **Revenue Recognition, Accounts Receivable and Allowance for Doubtful Accounts**

Revenue is recognized when the earnings process is completed or virtually completed and the revenue is realizable and measurable. The costs of providing services are recognized as incurred. Usage revenues (equal to the excess of minutes of traffic included in the fixed monthly service fees) from wireless services and mobile virtual network operator services, international simple resale services, Internet and data services and interconnection calls, net of any applicable discount, are billed according to customers' usage and are recognized on the basis of minutes of traffic processed. Other revenues are recognized as follows: (a) fixed monthly service fees and leased-circuit service revenues are accrued each month; (b) prepaid call and Internet card services are recognized as income based upon customer usage; (c) one-time commission and subsidy revenue of a bundled contract (which covers both the purchase price of a cellular phone unit and a mobile phone number) or merely sales of mobile phone number as an agent for the telecommunications providers are accrued as activated; and (d) commission revenues are accrued monthly on the basis of related airtime revenue.

The amount received at the start of a bundled contract (which covers both the purchase price of a cellular phone unit and service fees for an equivalent number of minutes of traffic each month throughout the validity period of the contract) is deferred and recognized as revenue over the validity period of the contract using the straight-line method. If the sum of the cost of the cellular phone unit and the commission paid to the dealers (the "customer acquisition cost") exceeds the amount received at the beginning of the contract, the excess is charged to marketing expense. The portion of the customer acquisition cost equivalent to the amount received at the beginning of the contract is deferred and amortized as marketing expense over the validity period of the contract using the straight-line method.

Operating revenues are measured at fair values based on the prices negotiated between the Group and the customers. Since the future values of operating revenues resulting from receivables within one year approximate the fair values of these receivables, the fair values are not recalculated using the pro forma interest rate method.

The Company and Far Eastern Apparel Co. do not recognize as sales those transactions involving the delivery of materials to subcontractors for further processing since these transactions do not involve a transfer of ownership of materials.

An allowance for doubtful accounts is provided on the basis of the a review of the collectibility of accounts receivable. The Group assesses the probability of collections of accounts receivable by examining the aging analysis of the outstanding receivables and assessing the value of the collateral provided by customers.

### **Promotion Expenses**

Commissions and cellular phone equipment subsidy costs related to the Group's promotions are treated as marketing expenses or cost of telecommunications service in the year when the service to subscriber is activated.

### **Inventories**

Inventories are stated at the lower of cost or market value (net realizable value). Cost is determined using the weighted-average method. Losses on disposal of inventory are evaluated on the basis of the changes in marketing strategy. Losses on decline in value of inventory are evaluated on the basis of market demand and should be recognized when the net realizable value is lower than the cost.

### **Bonds Carried at Amortized Cost**

Bonds with fixed or determinable payments and with no quoted prices in an active market are measured at amortized cost. Bonds should be measured at original cost plus transaction cost on initial recognition. Gains or losses are recognized when de-recognition, impairment loss or amortization occurs. The regular purchase or sale of bonds is recognized and de-recognized using trade date accounting. An impairment loss should be recognized if there is objective evidence that a financial asset is impaired. If the impairment is determined as no longer existing or diminished, the impairment loss can be reversed to the extent that the reversal will not exceed bond carrying value had no impairment loss been recognized for the asset in prior years.

### **Financial Assets Carried at Cost**

Investments in equity instruments without quoted market prices in an active market, including investments in unlisted stocks and emerging stocks, are measured at cost upon initial recognition. Any cash dividends received are recognized as income on the date of the meeting of stockholders or on the ex-dividend date, but dividends declared from earnings before investment acquisition are recognized as a reduction of the carrying value of the investments. Stock dividends received are accounted for only as an increase in the number of shares held but are not recognized as investment income. The carrying amount of shares held is recalculated on the basis of the total number of shares held after stock dividends are received. An impairment loss should be recognized as a charge to current income if there is objective evidence that a financial asset is impaired. This loss cannot be reversed.

## **Real Estate**

FETL's subsidiary, FECC, uses the completed-contract method for its construction projects. Pre-sold real estate is recognized as advances on land and building. After completion of the construction, the ownership is transferred to a proprietor or owner, and the proceeds of this transfer are recognized as current revenues. The calculation of the construction cost is based on the size of the land used, the actual size of the house and the construction cost incurred. House ownership fully or partly transferred to customers is recognized as current construction cost; any remaining construction costs are recognized as available for sale - building and land.

Pre-sold property under the percentage-of-completion method of FECC is recognized in the balance sheet and is calculated on an accrual basis. If the accumulated construction gain exceeds total construction gain, the excess will be recognized as current revenues; otherwise, current loss is recognized. If the construction is estimated to result in a loss, the full loss has to be recognized immediately. But, if the estimated loss decreases, the cumulative loss recognized in excess of the estimated loss will be recognized as revenues.

Of FECC, construction is recognized by the percentage-of-completion method, the construction account is calculated depending on the construction cost actually incurred (such as construction land, costs and capitalized interests) plus or minus the estimated construction revenues or losses. After each construction completion, the sold parts of construction and related advances on land and building are netted out; the net amount is recognized as operating revenue. The parts unsold under the current construction program will be recognized as real estate ready for sale.

FECC classified its property as available for sale - building and land or available for construction - land is calculated at the lower of cost or market.

FECC treated its marketing expenses for pre-sold real estate as deferred marketing expenses first and recognized as current expenses when the construction is completed if the real estate ownership has not yet been transferred to customers.

## **Long-term Construction Contracts**

Revenues and costs of long-term construction contracts of FECC are recognized by the percentage-of-completion method. Under this method, the stage of completion of each contract is measured as a ratio of cumulative construction costs to total estimated contract costs. If contract price or construction contract costs cannot be reasonably estimated, the completed method is required.

Construction revenues and costs for the current year of FECC are the cumulative construction revenue and costs, determined using the percentage-of-completion method, in excess of the cumulative construction revenue and costs recognized in prior years. An estimated loss on a construction contract is recognized currently; any adjustment of this loss is recognized as either income or loss in the year of adjustment. The adjustment of the construction contract price of the prior year's completed construction is added to or deducted from the construction profit or loss of the current year. Under the completed-contract method, when construction is completed, the balance of billings on construction-in-progress and construction-in-progress will be charged to construction revenue and costs.

Long-term construction in progress of FECC is carried at cost plus estimated construction profit or less estimated losses. Installment payments or collections received on construction projects are credited to advances from construction. Upon completion of each project, these advances are offset against construction-in-progress.

At year-end, the balances of construction-in-progress and advances on construction of FECC are netted out, and the result is classified as current asset or current liability.

## **Equity-method Investments**

Long-term investments in which the Group owns at least 20% of investees' common stock or exercises significant influence over their operating and financial policy decisions are accounted for by the equity method.

On the acquisition date or the adoption of the equity method for the first time, the difference between investment cost and underlying equity in net assets is amortized using the straight-line method over 3 to 20 years. As required, however, by the revised ROC Statement of Financial Accounting Standards No. 5 - "Long Term Investments in Equity Securities," starting on January 1, 2006, the cost of acquisition is subjected to an initial analysis. The investment cost in excess of the fair value of identifiable net assets is recognized as goodwill. Goodwill is no longer amortized and instead tested annually for impairment. An impairment test is also required when there is evidence indicating that goodwill might be impaired because of an event or a change in the economic environment. If the fair value of identifiable net assets acquired exceeds the cost of investments, the excess should be assigned to noncurrent assets in proportion to their respective fair values (except for financial assets not under the equity method, assets for disposal, deferred income tax assets and prepaid pension costs or other retirement benefit costs). If these assets are all reduced to zero, the remaining excess should be recognized as extraordinary gain. Starting on January 1, 2006, the unamortized balance of the investment cost in excess of the equity in investee's net assets is no longer amortized and is instead subject to the same accounting treatment as that for goodwill; the negative goodwill previously acquired should be amortized over the remaining estimated economic lives.

An increase in the Group's proportionate share in the net assets of its investee resulting from its subscription for additional shares of stock issued by the investee at a rate different from its existing equity ownership in the investee is credited to capital surplus. If the subscription results in a decrease in the Group's equity in an investee's net assets, capital surplus is debited. If capital surplus is not enough for debiting purposes, the difference is debited to unappropriated earnings.

The Group's equity in equity-method investees' net income or net loss is recognized using the treasury stock method if there are reciprocal holdings between investors and investees.

For both equity-method and cost-method investments, stock dividends received are accounted for as increases in the number of shares held, which result in lower carrying value per share.

The costs of investments sold are determined as follows: (i) by the Company - weighted average method and (ii) by subsidiaries - moving-average method.

## **Properties and Rental Assets**

Properties and rental assets are stated at cost or cost plus appreciation, less accumulated depreciation. Major additions, renewals and betterments are capitalized, while maintenance and repairs are expensed currently.

Interest on borrowings used to finance the acquisition of properties and the construction of production facilities up to the time those properties are ready for their intended use is capitalized and included in the cost of the related assets.

Depreciation expenses for properties and rental assets are calculated by the Company and its subsidiaries using the fixed-percentage-of-declining-balance method and straight-line method, respectively.

Depreciation expenses are computed over service lives originally estimated as follows: buildings and equipment, 3 to 55 years; machinery and equipment, 5 to 15 years; and operating equipment, 2 to 15 years; computer equipment, 3 to 10 years; and leasehold improvements and miscellaneous equipment, 3 to 15 years. Depreciation on appreciation is computed over the remaining service lives of the assets on the revaluation date. When properties and rental assets reach their residual value and are still being used, they are further depreciated over their newly estimated service lives.

When properties are retired or disposed of, their costs or costs plus appreciation and related accumulated depreciation are removed from the accounts, and the resulting gains or losses are credited or charged to nonoperating income.

Equipment covered by capital lease agreements are stated at the lower of (1) the fair value of the equipment at the beginning of the lease or (2) the total present value of future lease payments and the bargain purchase price. Implicit interest included in the periodic lease payments is treated as current interest expenses.

### **Idle Assets**

Properties not currently used in operations are transferred to other assets at the lower of net book value or net realizable value, with the difference charged to nonoperating expenses. However, starting on January 1, 2006, based on related regulations, depreciation is calculated using the straight-line method over the estimated useful lives of the properties.

### **Intangible Assets**

Goodwill is the difference (the source of which cannot be identified) between investment costs and the equity in investees' net assets, which is amortized using the straight-line method over 3 to 15 years. However, under the revised ROC Statement of Financial Accounting Standards No. 5 - "Long-term Investments in Equity Securities," goodwill is no longer amortized starting on January 1, 2006.

The 3G concession, which was stated at cost, is amortized on a straight-line basis from January 24, 2005, the issuance date of the concession license, until the license expiry on December 31, 2018.

Land leasehold rights are amortized over 50 years.

Technical know-how is amortized over 10 years.

Patents and computer software costs were stated at cost and amortized over 3 to 5 years on a straight-line basis.

### **Deferred Charges**

Deferred charges, which are derived mainly from costs of retail store renovation of Far EasTone are amortized using the straight-line method over the terms of lease. The cost of issuing convertible bonds before December 31, 2005 should be amortized by the straight-line method between the issuance date and the redemption date at the option of the bondholder. Other deferred charges are amortized by the straight-line method over five to seven years.

### **Impairment Loss**

An impairment loss should be recognized if the carrying value of assets (including properties, rental assets, idle properties, 3G concession, goodwill, deferred charges and equity-method investments) exceeds their recoverable amount, and this impairment loss should be charged to current income. For investees which Far EasTone exercises significant influence but not control, the recoverable amount is calculated based on investee's individual investment value. For investees which Far EasTone has control, the recoverable amount is assessed under the consideration of taking the consolidated financial statement as a whole. The accumulated impairment loss of an asset recognized in prior years can be reversed if, later on, the estimate of the asset's recoverable amount later has changed so as to increase the recoverable amount. Then, the asset's carrying amount can be increased to its recoverable amount; however, the recoverable amount should not exceed the carrying amount that would have been after the deduction of depreciation or amortization if it had not been impaired.

To test for impairment, goodwill should be allocated to each of the cash-generating units that are expected to benefit from the synergies of the combinations. A cash-generating unit should be tested for impairment at least annually by comparing the carrying amount of the unit with its recoverable amount. If the carrying amount exceeds the recoverable amount of the unit, the impairment loss is allocated to reduce the carrying amount of the unit in the following order: (a) reduce the carrying amount of any goodwill allocated to the unit; and (b) reduce the carrying amounts of other assets of the unit proportionally. A reversal of an impairment loss on goodwill is disallowed.

### **Deferral of Unrealized Intercompany Profit**

The entire gains or losses from FETL's sales of products to its subsidiaries are deferred and included in deferred income. In addition, FETL classifies deferred income as current or noncurrent on the basis of the length of the gain realization period.

FETL defers gains or loss on its product sales in proportion to ownership percentages for sales to equity-method investees that are not majority owned.

FETL defers its gains or losses on the subsidiaries' sales of products to FETL or on the sale among subsidiaries in proportion to its equity in the subsidiaries.

The unrealized profit due from selling stocks in the open market by the Company, then the stocks was bought by equity-method investees or the Company sells the stocks to intercompanies or equity-method investees directly, is recognized as revenue when it is realized. The profit of selling shares of interest to the Company due to organization reassemble is recognized as additional paid-in-capital, and loss is deducted from additional paid-in-capital or retained earnings if additional paid-in-capital is not enough.

Deferred gain on disposal of land is recognized as revenue when the buyer has resold it. Deferred gain on disposal of building is recognized as revenue using the straight-line method over the estimated useful lives of the building or is recognized the rest as revenue when the building is resold.

All of the deferred gains and losses are realized on the subsequent sale of related items to third parties.

### **Convertible Bonds**

Far EasTone issued overseas convertible bonds at par value and without any discount or premium. It gave the bondholders the right to redeem the convertible bonds in cash at par value plus the interest-premium on a specific date. The interest-premium of puttable convertible bonds, which is the difference between the specified put price and the par value, is amortized using the interest method and is recognized as a liability from the issuance date of the bonds to the expiry date of the put option. The direct and necessary costs (included in other assets - miscellaneous) of issuing convertible bonds are amortized using the straight-line method over the same period as that for interest-premium.

When the bondholder exercises the conversion option, the Group uses the book-value approach. Under this approach, the Group writes off the unamortized issuance costs, recognized interest-premium and par value of the convertible bonds. The common stock exchange certificate (capital stock) should be valued at its carrying amount net of the amounts written off, and the amount in excess of the par value of the common stock exchange certificate (capital stock) is recognized as additional paid-in capital.

### **Pension Costs**

The Group has two types of pension plans: Defined benefit and defined contribution.

Under the defined benefit plan, pension costs are recognized on the basis of actuarial calculations. Under the defined contribution pension plan, required monthly contributions by the Group to the employees' individual pension accounts are recognized as pension costs over the employees' service years.

Under government regulations, subsidiaries established in China have defined contribution pension plans. They make monthly contributions to a pension fund at a fixed percentage of salaries and recognize these contributions as pension costs. However, holding companies do not have pension plans because they do not have any employees.

## **Income Tax**

The inter-period and intra-period allocation methods are used for income taxes. Deferred income tax assets are recognized for the tax effects of deductible temporary differences, unused operating loss carryforwards and unused investment tax credits, and deferred tax liabilities are recognized for the tax effects of taxable temporary differences. A valuation allowance is recognized for deferred income tax assets that are not certain to be realized. Deferred income tax assets and liabilities are classified as current or noncurrent on the basis of the classification of the related assets and liabilities for financial reporting. A deferred asset or liability that cannot be related to an asset or a liability in the financial statements is classified as current or noncurrent according to the expected realization date of the temporary difference.

Deferred tax liabilities cannot be recognized if they are the temporary difference arising from the financial accounting and tax accounting for the undistributed earnings of foreign subsidiaries.

Tax credits for certain purchases of telecommunications and other equipment, research and development expenses, personnel training expenses and investments in shares of stock are accounted for as a reduction of the current period's income tax expense.

Adjustments of prior years' tax liabilities are added to or deducted from the current period's income tax expenses.

Income taxes (10%) on undistributed earnings generated since January 1, 1998 are recorded as expense in the year when the stockholders resolve to retain the earnings.

The Company and Far Eastern Resources Development adopted the linked-tax system for tax filings. Differences between current and deferred income tax expenses on consolidated entity basis and those on nonconsolidated entity basis are adjusted in the Company's income tax expenses. Related reimbursement and appropriation are recognized as receivables or payables.

The Income Basic Tax Act (the "IBT Act"), which took effect on January 1, 2006, requires that the income basic tax should be 10% of the sum of the taxable income calculated in accordance with the Income Tax Act plus tax benefit regulated by the Income Tax Act or other laws. The tax payable of the current year would be the higher of the income basic tax and income tax payable calculated in accordance with the Income Tax Act. The effect of the IBT Act on the Group's income tax is already included in the current tax expense.

## **Foreign-currency Transactions and Translation of Foreign-currency Financial Statements**

Nonderivative foreign-currency transactions are recorded in New Taiwan dollars at the rates of exchange in effect when the transactions occur. Gains or losses resulting from the application of prevailing foreign exchange rates when cash in foreign currency is converted into New Taiwan dollars or when nonmonetary foreign-currency-denominated assets and liabilities are settled, are credited or charged to income in the period of settlement.

On the balance sheet date, the balances of nonmonetary foreign currency-denominated assets and liabilities evaluated at fair value, such as equity instruments, are restated at the prevailing exchange rates, and the resulting differences are recorded as adjustment to stockholders' equity or as profit or loss in the current period. Financial assets and liabilities carried at cost are stated at historical exchange rates; while equity-method investments are recorded as cumulative translation adjustments under stockholders' equity.

The prevailing exchange rates mentioned above are based on the average values of banks in association.

## **Hedging Derivative Financial Instruments**

Hedging derivative financial instruments are measured at fair value. The changes in fair values of these instruments are debited or charged to either stockholders' equity or current income depending on the type of the hedged items.

## **Hedge Accounting**

Hedge accounting involves the recognition of the offsetting effects on profit or loss of changes in fair values of the hedging instrument and the hedged item.

- a. Some derivative instruments held by the Group are for fair value hedge purposes. Thus, the gains or losses from the changes in fair values of the derivative hedging instruments or from the changes in carrying values on the nonderivative financial instruments are recognized as current income. If values of the hedged items change, the gains or losses will be recognized as current income and adjustments to the carrying values of the hedged item.
- b. Some derivative instruments held by the Group are for cash flow hedge purposes. Thus, the gains or losses from the changes in fair values of the hedging instruments are recognized under stockholders' equity and are recognized as current income if the hedged forecast transaction affects net gains or losses. If hedging would give rise to a nonfinancial asset or liability, the gain or loss will be recognized as an adjustment to the original cost or carrying amount of the hedged asset or liability. If recognized adjustments to stockholders' equity result in irreversible losses, these losses should be immediately charged to current income.

The Group uses interest rate swaps and forward exchange contracts to hedge cash flow risks from interest rate and exchange rate fluctuations of liabilities and firm commitments.

## **Reclassifications**

Certain accounts in the consolidated financial statements as of and for the year ended December 31, 2006 have been reclassified to be consistent with the presentation of the consolidated financial statements as of and for the year ended December 31, 2007.

## **3. CHANGES IN ACCOUNTING PRINCIPLES**

On January 1, 2007, the Company and its subsidiaries adopted the newly released ROC Statements of Financial Standards ("Statements" or SFAS) No. 37 - "Accounting for Intangible Assets" and related revisions of previously released statements, and reevaluated the useful lives and depreciation methods of recognized intangible assets on the same date. This accounting change does not affect the combined income before income tax, combined net income, and earning per share after income tax.

On January 1, 2006, the Group adopted the new ROC Statements of Financial Standards ("Statements" or SFAS) No. 34 - "Accounting for Financial Instruments" and ROC SFAS No. 36 - "Disclosure and Presentation of Financial Instruments" and related revisions of previously released Statements.

### Effects of accounting changes

On the basis of the accounting changes, the Group reclassified financial assets and financial liabilities (including derivative instruments). The cumulative effect of the accounting changes should be recognized in the current period for adjustments to the carrying values of the financial assets at fair value through profit or loss. Available-for-sale financial instruments measured at fair value or the assets or derivatives under the cash flow hedge are recognized as adjustments to stockholders' equity. In addition, an adjustment from assets or liabilities deferred from profit or loss under the cash flow hedge to stockholders' equity should be made for derivative instruments.

The amounts pertaining to the effects of the accounting changes were as follows:

	As Cumulative Effect of Changes in Accounting Principle (After Tax)		As Adjustments to Stockholders' Equity (After Tax)	
	NT\$	US\$	NT\$	US\$
Financial assets at fair value through profit or loss - current				
- Far Eastern General Contractor	\$ 1,007	\$ 31	\$ -	\$ -
- Yuan Tong Investment	22,127	682	-	-
Available-for-sale financial assets - current				
- FETL	-	-	41,090	1,266
- Yuan Ding Investment	-	-	692,884	21,366
- Far Eastern Construction	-	-	39,324	1,213
- Yuan Tong Investment	-	-	8,036	248
- Far Eastern General Contractor	-	-	12,082	373
Available-for-sale financial assets - noncurrent				
- Kai Yuan International Investment	-	-	6,983	215
- Ding Yuan International Investment	-	-	(145)	(4)
Hedging derivative financial liabilities - noncurrent				
- FETL	-	-	(85,465)	(2,635)
- Far EasTone	-	-	68,446	2,110
- Yuan Ding Investment	-	-	(37,949)	(1,170)
- ARCOA	-	-	900	27
	<u>\$ 23,134</u>	<u>\$ 713</u>	<u>\$ 746,186</u>	<u>\$ 23,009</u>

The above accounting changes resulted in increases of NT\$824 thousand (US\$25 thousand) in continuing operations' income (after tax), NT\$23,958 thousand (US\$739 thousand) in net income and NT\$0.01 (US\$0.0003) in earnings per share after tax in the year ended December 31, 2006.

The Group adopted the revised ROC SFAS No. 1 - "Conceptual Framework for Financial Accounting and Preparation of Financial Statements"; No. 5 - "Long-term Investments in Equity Securities"; and No. 25 - "Business Combinations - Accounting Treatment under the Purchase Method." These revisions stated that the difference between the cost of an investment and the amount of the underlying equity in net assets of an investee should no longer be amortized and instead should be tested for impairment loss periodically. The adoption of the revised standards resulted in increases of NT\$1,223,331 thousand (US\$37,722 thousand) in consolidated net income before income tax expense without any cumulative changes in accounting principles and of NT\$0.28 (US\$0.0086) in basic earnings per share after income tax in the year ended December 31, 2006.

#### 4. TRANSLATION INTO U.S. DOLLARS

The consolidated financial statements are stated in New Taiwan dollars. The translations of the New Taiwan dollars into U.S. dollars are included solely for the convenience of readers, using the exchange rate as of December 31, 2007 of NT\$32.43 to US\$1.00 published by the Bank of Taiwan as of December 31, 2007. The convenience translations should not be construed as representations that the New Taiwan dollar amounts have been, could have been, or could in the future be, converted into U.S. dollars at this or any other exchange rate.

## 5. CASH AND CASH EQUIVALENTS

	New Taiwan Dollars		U.S. Dollars (Note 4)	
	2007	2006	2007	2006
Cash				
Cash on hand	\$ 23,477	\$ 27,768	\$ 724	\$ 856
Savings and checking accounts	5,452,000	4,089,767	168,116	126,111
Time deposits: Interest -

Commercial paper purchased under agreements to resell: Interest -				
1.91%-2% in 2007 and 1.61%-1.65% in 2006	6,207,204	6,903,070	191,404	212,860
Treasury bills purchased under agreement to resell: Interest -				
1.625%-1.95% in 2007 and 1.465%-1.560% in 2006	<u>3,148,125</u>	<u>141,682</u>	<u>97,074</u>	<u>4,369</u>
	<u>9,355,329</u>	<u>7,044,752</u>	<u>288,478</u>	<u>217,229</u>
Management discretionary accounts	<u>193,038</u>	<u>24,742</u>	<u>5,952</u>	<u>764</u>
	<u>\$ 24,206,234</u>	<u>\$ 17,570,203</u>	<u>\$ 746,415</u>	<u>\$ 541,789</u>

As of December 31, 2007, demand deposits in foreign banks were as follows:

Deposits in Foreign Bank	New Taiwan Dollars	U.S. Dollars (Note 4)
Belgium (US\$516 thousand)	\$ 16,734	\$ 516
China - Hong Kong (US\$16 thousand)	519	16
U.S.A. - New York (US\$11 thousand)	<u>344</u>	<u>11</u>
	<u>\$ 17,597</u>	<u>\$ 543</u>

As of December 31, 2006, demand deposits in foreign banks were as follows:

Deposits in Foreign Bank	New Taiwan Dollars	U.S. Dollars (Note 4)
Belgium (US\$1,025 thousand)	\$ 33,413	\$ 1,030
China - Hong Kong (US\$22 thousand)	717	22
U.S.A. - New York (US\$11 thousand)	<u>359</u>	<u>11</u>
	<u>\$ 34,489</u>	<u>\$ 1,063</u>

## 6. FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS - CURRENT

Financial assets held for trading and financial assets at fair value through profit or loss were as follows:

	New Taiwan Dollars		U.S. Dollars (Note 4)	
	2007	2006	2007	2006
<u>Financial assets held for trading</u>				
Marketable equity securities	\$ 727,682	\$ 393,357	\$ 22,439	\$ 12,129
Exchangeable bonds collection right	104,500	-	3,222	-
Cotton futures contracts	44,286	27,694	1,366	854
Mutual funds - beneficiary certificates	<u>24,911</u>	<u>227,891</u>	<u>768</u>	<u>7,028</u>
	<u>\$ 901,379</u>	<u>\$ 648,942</u>	<u>\$ 27,795</u>	<u>\$ 20,011</u>
<u>Financial liabilities held for trading</u>				
Exchangeable bonds exchange right	\$ 347,750	\$ -	\$ 10,723	\$ -
Exchangeable bonds redemption right	31,000	-	956	-
Forward exchange contracts	<u>22,918</u>	<u>14,391</u>	<u>707</u>	<u>444</u>
	<u>\$ 401,668</u>	<u>\$ 14,391</u>	<u>\$ 12,386</u>	<u>\$ 444</u>

Starting in 2007, Yuan Ding Investment Corp. and KG Telecom, while Yuan Tong Investment Corp. in 2006, respectively contracted with and fully authorized Oriental Securities Investment Advisory Co., Ltd. (trustee) to manage discretionary funds. As of December 31, 2007 and 2006, the capital fully authorized to the trustee were totaled NT\$1,050,000 thousand (US\$32,377 thousand) and NT\$450,000 thousand (US\$13,876 thousand). Investment target excluded shares of related parties, and deposits among those fully authorized were totaled NT\$193,038 thousand (US\$5,952 thousand) and NT\$24,742 thousand (US\$763 thousand), respectively in 2007 and 2006, classified under cash equivalents (Note 5).

The Company used cotton futures contracts and forward exchange contracts to hedge the fluctuation of cotton prices and exchange rates on account receivables and payables in the years ended December 31, 2007 and 2006. The strategy is to hedge the Company's market risk exposure. Since these transactions do not meet the criteria for hedge accounting, they were classified as held for trading.

The outstanding cotton futures contracts held by FETL as of December 31, 2007 and 2006 are summarized as follows:

Outstanding Derivative Contract	December 31, 2007		
	Maturity	Units	Contract Amount (Thousands)
Cotton futures contracts	March 2008	110	US\$3,593/NT\$116,521
	May 2008	40	US\$1,308/NT\$42,418
<u>Outstanding Derivative Contract</u>			
Outstanding Derivative Contract	December 31, 2006		
	Maturity	Units	Contract Amount (Thousands)
Cotton futures contracts	May 2007	50	US\$1,346/NT\$43,784
	July 2007	50	US\$1,376/NT\$44,760

The Company has no outstanding forward exchange contracts as of December 31, 2006; while the outstanding forward exchange contracts as of December 31, 2007 are as follows:

	<b>Currency</b>	<b>Maturity</b>	<b>Contract Amount (Thousands)</b>
<u>December 31, 2007</u>			
Sell	EUR/USD	2008.2.27	EUR2,000/USD2,871
Sell	USD/NTD	2008.1.4-2008.3.12	USD77,000/NTD2,481,255

The Company profits from call options on royalties and the difference between exchange rates fluctuations. The Company has no outstanding option contracts as of December 31, 2007 and 2006, respectively.

FEIW authorized FEIH to trade cotton futures contracts in order to hedge overall fluctuations on cotton price. Since the related trading documents of FEIH did not meet the requirements of hedge accounting, these transactions can only be classified under held for trading. As of December 31, 2007 and 2006, there were no outstanding cotton futures contracts held by FEIH.

F.E.I.H. traded forward exchange contracts to hedge against the exchange rate risk on foreign currency assets and liabilities as authorized by affiliates O.T.I.Z., F.E.I.S., F.E.I.W., and Sino Belgium in 2007 and by O.T.I.Z. and F.E.I.W. in 2006.

As of December 31, 2007 and 2006, FEIH has trusted outstanding forward exchange contracts as follows:

	<b>Currency</b>	<b>Maturity</b>	<b>Contract Amount (Thousands)</b>
<u>December 31, 2007</u>			
Sell	USD/CAD	2008.1.25-2008.3.25	USD10,000/CAD9,779
Sell	USD/JPY	2008.1.30	USD7,000/JPY752,737
Buy	USD/EUR	2008.1.30	USD5,954/EUR4,000
<u>December 31, 2006</u>			
Sell	USD/JPY	2007.3.12-2007.3.20	USD24,900/JPY2,879,506

On the exchangeable bonds issued in 2007, the Company separately recognized the embedded derivatives and the host debt instruments. In addition, the derivatives were measured at fair value and recognized as financial assets and liabilities at fair value through profit or loss.

The Group's net gains on derivative financial instruments were NT\$132,513 thousand (US\$4,086 thousand) in 2007 and NT\$3,351 thousand (US\$103 thousand) in 2006.

## 7. AVAILABLE-FOR-SALE FINANCIAL ASSETS

	<b>New Taiwan Dollars</b>		<b>U.S. Dollars (Note 4)</b>	
	<b>2007</b>	<b>2006</b>	<b>2007</b>	<b>2006</b>
Current				
Marketable equity securities	\$ 500,277	\$ 103,848	\$ 15,427	\$ 3,202
Open-end mutual funds - beneficiary certificates	1,332,878 1,833,155	704,647 808,495	41,100 56,527	21,728 24,930
Noncurrent				
Marketable equity securities	117,355	217,513	3,619	6,708
	<u>\$ 1,950,510</u>	<u>\$ 1,026,008</u>	<u>\$ 60,146</u>	<u>\$ 31,638</u>

The amounts of available-for-sale financial assets assessed as non-recoverable and permanent losses were NT\$25,349 thousand (US\$782 thousand) and NT\$91,641 thousand (US\$2,826 thousand), respectively in 2007 and 2006.

## **8. BONDS CARRIED AT AMORTIZED COST - CURRENT**

	<b>New Taiwan Dollars</b>		<b>U.S. Dollars (Note 4)</b>	
	<b>2007</b>	<b>2006</b>	<b>2007</b>	<b>2006</b>
Bond - Ta Chong Commercial Bank	\$ 3,000	\$ 3,000	\$ 93	\$ 93

On July 16, 2004, ARCOA bought a five-year corporate bond at par value, amounting to NT\$3,000 thousand (US\$93 thousand) with coupon interest rate of 2.55%. The interest is payable on July 16 annually. The maturity date of the bond is July 16, 2009.

## **9. INVENTORIES**

	<b>New Taiwan Dollars</b>		<b>U.S. Dollars (Note 4)</b>	
	<b>2007</b>	<b>2006</b>	<b>2007</b>	<b>2006</b>

The land in section number 9 of the new station in Ban Ciao ("Ban Ciao Zhong Ben") was developed using the joint construction and allocation of housing units method for FECC and Far Eastern Department Store. The allocation of housing units was based on percentages of land ownership (36.07% for FECC and 63.93% for Far Eastern Department Store).

In the years ended December 31, 2007 and 2006, FECC's capitalized interest which generally referred to construction-in-progress and prepaid construction, was NT\$38,118 thousand (US\$1,175 thousand) and NT\$26,522 thousand (US\$818 thousand), respectively. The capitalization rates were 1.658%-2.8908% in 2007 and 1.32% to 2.64% in 2006.

Construction-in-progress (net of billings on construction-in-progress) of FEGC as of December 31, 2007 and 2006 was as follows:

(Concluded)

FEGC obtained a Kaohsiung MRT project contract and signed a syndicate loan contract with syndicate banks, with China Trust Commercial Bank as the lead and managing bank. According to the appointment, the cash project fund appropriated by Kaohsiung Rapid Transit Corporation (KRTC, the proprietor) should be deposited to the lead bank's special account. Before moving and setting aside the project fund, FEGC must submit a detailed statement of expenditures to the managing bank, which will appropriate the project fund after processing and approving this statement. When the fund exceeds a certain amount, FEGC can buy bond fund or time deposit, but FEGC should pledge the above bond fund or time deposit as security for the managing bank. The contract was due in October 2007 and the special account was not restricted by then. As of December 31, 2006, remaining amount of the special account was NT\$74 thousand (US\$2 thousand), the account arranged under other financial assets - restricted assets.

The Company's holdings of marketable equity securities and funds with no quoted market prices and with fair values that could not be reliably measured were evaluated at holding cost.

Investment in Alberia & Orient Glycol Company Ltd. was accounted for by the cost method since the Group could not exercise significant influence over this investee although the Group owned more than 20% of his investees' voting stock.

The value of the cost-method investees had been considered impaired and the chance for recovery is little. Thus, a permanent decline loss on these investments was recognized in 2007 and 2006, as follows:

	New Taiwan Dollars		U.S. Dollars (Note 4)	
	2007	2006	2007	2006
NCIC	\$ 48,879	\$ 536,115	\$ 1,507	\$ 16,531

On December 29, 2005, the board of directors of Tai Ya International Telecommunications Co., Ltd. (TYIT) resolved to merge Mobitai communications Ltd. ("Mobitai") with TYIT, as the survivor company, in accordance with Article 19 of the Business Mergers and Acquisitions Act and set January 1, 2006 as the record date of the merger. Under the resolution of TYIT's board, the Company received NT\$167,863 thousand (US\$5,176 thousand) from Mobitai in exchange for Mobitai's 11,469 common shares (NT\$14.68 (US\$0.45) per share) held by the Company. The Company wrote off the investment in Mobitai and recognized a disposal gain of NT\$31,814 thousand (US\$981 thousand). However, the Company regarded Mobitai's purchase price as too low and raised an objection to Mobitai. Afterwards, the Company filed a lawsuit against TYIT. As of March 10, 2008, the date of the accompanying accountants' report, the lawsuit was pending before the Taipei district court.

New Century InfoComm Tech (NCIC) conducted stock reduction in August 2007. NT\$1,198,873 thousand (US\$36,968 thousand) was returned to the Company and its subsidiaries.

Hantech Venture Capital Corp. conducted stock reduction in November 2007. NT\$32,088 thousand (US\$989 thousand) was returned to the Company and its subsidiaries.

Far EasTone issued common shares to exchange for NCIC's common shares, and this share swap took place after NCIC's capital reduction. The Group thus indirectly gained significant influence on NCIC and changed the accounting method for its investment in NCIC into the equity method on December 31, 2007.

On September 25, 2006, Gallery Management Corp. made a stock reduction amounting to NT\$6,485 thousand (US\$200 thousand) and returned this amount to the Group.

Investments in Far Eastern International Commercial Bank, Ding Ding Hotel Corp., and Ding Ding Integrated Marketing Service Co. were accounted for by the equity method since the Group exercised significant influence over them although the Group owned less than 20% of each of these investees' voting stock.

The financial statements as of and for the years ended December 31, 2007 and 2006 that were used as the basis for calculating the carrying values of and related equity in net gains or losses of the foregoing equity-method investments had all been audited, except those of Hi Information Co., Ltd. (“HI”) as of and for the year ended December 31, 2006.

The market prices of equity-method investments in listed companies were NT\$54,429,317 thousand (US\$1,678,363 thousand) and NT\$36,956,944 thousand (US\$1,139,591 thousand) as of December 31, 2007 and 2006, respectively. They were calculated by the average closing prices on December 31, 2007, and the average closing prices of December 2006, respectively.

On January 23, 2007, Yuan Ding Investment Corp. (YDI, a Company subsidiary) sold to an unrelated party its holding of 84,000 thousand shares of Asia Cement Co., Ltd. (ACC) for NT\$2,734,372 thousand (US\$84,316 thousand), or about NT\$32.65 (US\$1) per share, to participate in ACC’s global depositary receipts offering. Additionally in 2007, YDI disposed of 13,013 thousand shares of ACC for NT\$472,410 thousand (US\$14,567 thousand) and of 7,620 thousand shares of Far Eastern Department Store for NT\$298,408 thousand (US\$9,202 thousand).

In February, 2007, the Company and subsidiaries acquired 19,644 thousand shares totalling NT235,733 thousand (US\$7,269 thousand) through the issuance of stock by cash of Far Eastern Leasing Corp (F.E.L.C.). Thus, the combined ownership percentage of F.E.L.C. increased from 31.87% to 32.77%.

In their special meeting on October 5, 2006, the stockholders of Hi Information Co., Ltd. (“HI”) resolved to liquidate the company in accordance with the Company Law. The liquidation was completed on May 1, 2007. After HI’s first distribution of a cash capital return of NT\$4,939 thousand (US\$152 thousand) to ARCOA, HI still had non-cash assets held for sale amounting to NT\$3,980 thousand (US\$123 thousand). ARCOA estimated that the remaining recoverable capital was about NT\$1,087 thousand (US\$34 thousand), included in other current assets.

Far EasTone issued 100,637 thousand and 59,733 thousand common shares to exchange for 615,179 thousand and 365,137 thousand, respectively, of NCIC’s common shares. (This share swap took place after NCIC’s capital reduction, which resulted in the decrease in the equity of Infocom Holding Company Pte Ltd. and SingTel Taiwan Limited in NCIC.). The record date of the share swap was December 31, 2007, and the swap ratio was 1:6.11282174, with “1” pertaining to Far EasTone. The share swap was approved by the Financial Supervisory Commission under the Executive Yuan on December 26, 2007 and registered with the Ministry of Economic Affairs on January 14, 2008.

The difference between investment cost and equity in the investees’ net assets as of December 31, 2007 and 2006 is as follows:

Under government regulations, the Company revalued certain properties (excluding land) in 1983 and certain land in 1994 (including land presented as part of properties and properties leased to others - Note 11). The resulting appreciation was accounted for as an increase in the carrying value of the properties and properties leased to others. A reserve for land value increment tax was also recognized and the net appreciation was credited to unrealized revaluation increment on properties.

The Company and Asia Cement Corporation (ACC) co-own a parcel of land located on Tun-Hwa South Road in Taipei. Under an agreement with the Company and ACC dated March 31, 1989, Yuan Ding Investment Corporation ("Yuan Ding") constructed a building on this land. The parties further agreed that Yuan Ding use the land for 30 years. In exchange, the Company and ACC each received 12% of the usable area of the building. Upon expiration of the agreement, the Company and ACC will acquire from Yuan Ding the remaining 76% usable area of the building, with the acquisition price based on the book value of the building by that time.

On September 2, 2003, the Company transferred the real estate development rights (including those on operating and nonoperating properties and farmland) from investment department to its wholly owned subsidiary, Far Eastern Resources Development Co., Ltd., a newly set up company. When the contract described in the preceding paragraph is terminated, the Company and AAC will request Yuan Ding to transfer the property right of the co-owned building along with the real estate development right to Far Eastern Resources Development Co., Ltd.

b. Far Eastern Apparel Company (FEAC) rents copy machines under a capital lease agreement for three to four years. Total annual lease payments were NT\$1,045 thousand (US\$32 thousand) in 2007 and NT\$738 thousand (US\$23 thousand) in 2006.

c. The contracts of capital lease were summarized as follows:

Lessor	Properties	Payment Terms	Rental Paid			
			New Taiwan Dollars 2007	New Taiwan Dollars 2006	U.S. Dollars (Note 4) 2007	U.S. Dollars (Note 4) 2006
Far Eastern International Leasing Corp. - Far EasTone	Computer equipment	July 2004-June 2009 \$15,414 thousand annually	\$ 15,414	\$ 15,414	\$ 475	\$ 475

d. Capitalized interest on properties was as follows:

	New Taiwan Dollars 2007	New Taiwan Dollars 2006	U.S. Dollars (Note 4) 2007	U.S. Dollars (Note 4) 2006
Total interest expense	\$ 2,606,214	\$ 2,101,681	\$ 80,364	\$ 63,989
Less: Interest capitalized - interest rate: 1.56%-6.02% in 2007 and 1.32%-5.99% in 2006	<u>195,175</u>	<u>298,483</u>	<u>6,018</u>	<u>9,204</u>
Interest expense, net of amounts capitalized	<u>\$ 2,411,039</u>	<u>\$ 1,803,198</u>	<u>\$ 74,346</u>	<u>\$ 54,785</u>

Depreciation expenses were NT\$14,885,634 thousand (US\$459,008 thousand) in 2007 and NT\$14,961,795 thousand (US\$461,357 thousand) in 2006.

## 15. GOODWILL

If an investment acquisition cost exceeds the fair value of identifiable net assets acquired, and the source of this excess cannot be identified, this excess should be recorded as goodwill.

Under Statement of Financial Accounting Standards No. 35 - "Accounting for Asset Impairment," the Far EasTone and its subsidiaries are divided into three identifiable cash-generating units starting on January 1, 2005: Far EasTone, KG Telecom, ARCOA and Q-Ware Communication Corp. (Q-Ware).

On December 31, 2007, the carrying value of the tangible and intangible assets used by Far EasTone and its subsidiaries were NT\$68,221,128 thousand (US\$2,103,643 thousand). Far EasTone's management estimated the recoverable amount of core assets at their expected useful lives and thus based the cash flow forecast on discount rates of 13.38% (Far EasTone), 14.48% (KG Telecom), 15.6% (ARCOA) and 10.00% (Q-Ware). The operating revenue forecast is based on the expected future growth rate of the telecom industry along with the prospective advancement of the business. On the basis of the anticipated effective customer base and sales predictions, Far EasTone's management believes that the carrying amounts of these tangible and intangible assets will not exceed their recoverable amounts even if there are changes in the basic assumptions used to estimate recoverable amounts as long as these changes are reasonable.

The principal assumptions and the relevant measurement of the recoverable amounts of Far EasTone and its subsidiaries are summarized as follows:

- a. Expected future growth rate of the telecommunications industry
  - 1) Mobile voice service (MVS): The anticipated MVS growth rate is based on the actual effective customer base of the previous years and on assumptions that the 2G telecommunications services market is mature and there would be increased use of 3G telecommunications services. Therefore, the growth rate is expected to be stable.
  - 2) Mobile data service (MDS): The demand for MDS is expected to grow. However, given the cycle in the industry, the growth rate for MDS will gradually decrease annually.
  - 3) Business of selling cellular phone units: Based on past experience, plans and the trend in the overall market, the anticipated growth rate is expected to decrease.
- b. Expected ratio of service EBITDA (earnings before interest, taxes, depreciation and amortization) to operating revenue: The ratio was around 50% in 2007; this ratio is expected to decrease in future years.

As of December 31, 2007, recognized impairment loss of NT\$10,211 thousand (US\$315 thousand) was classified under nonoperating expenses and losses - others.

The loan agreements provide for various repayment terms (quarterly or semiannual or lump sum on maturity), with all payments due by December 2010. Bank interest rates were 2.297% to 7.35% in 2007 and 1.5700% to 6.2525% in 2006.

Yuan Ding Investment corp. signed a revolving credit agreement with financial institutions to issue commercial papers in fixed interest rate on August 10, 2006. They reached an agreement to allow Yuan Ding Investment to reissue commercial papers within credit lines in three years, with 2.2% fixed interest rate.

Commercial paper with one-year maturity had floating interest rates ranging from 2.462% to 2.571% and as of December 31, 2007. Under a revolving credit agreement, a consortium of banks guaranteed the commercial paper to be reissued by the Group.

FETL issued five-year nonconvertible bonds (68th tranche) on June 26, 2002. The total face value of the bonds is NT\$2,000,000 thousand (US\$61,671 thousand), with each bond having a face value of NT\$1,000 thousand (US\$31 thousand). These bonds are repayable in lump sum on maturity. Interests are calculated quarterly at a single interest rate and repayable annually. The bonds were due and paid in June 2007.

FETL issued five-year nonconvertible bonds (69th tranche) on January 28, 2003. These bonds have an aggregate face value of NT\$1,000,000 thousand (US\$30,836 thousand), with each unit having a face value of NT\$1,000 thousand (US\$31 thousand). They are repayable in lump sum on maturity, with 0% interest calculated semiannually and paid annually.

The Company issued five-year nonconvertible bonds (70th tranche) on August 4 to 6, 2003. These bonds have an aggregate face value of NT\$2,000,000 thousand (US\$61,671 thousand), with each unit having a face value of NT\$10,000 thousand (US\$308 thousand). They are repayable in one lump sum on maturity, with 0% interest calculated semiannually and paid semiannually.

The Company issued five-year nonconvertible bonds (71st tranche) on October 22, 2003. These bonds have an aggregate face value of NT\$1,000,000 thousand (US\$30,836 thousand), with each unit having a face value of NT\$1,000 thousand (US\$31 thousand). They are repayable in one lump sum on maturity, with 0% interest calculated semiannually and paid annually.

FETL issued five-year nonconvertible bonds (72th tranche) on August 13, 2004. The total face value of the bond is NT\$1,500,000 thousand (US\$46,253 thousand), with each unit having a face value of NT\$10,000 thousand (US\$308 thousand). These bonds are repayable in lump sum on maturity, with 1.68% interest. Interest is calculated seasonally and paid annually.

To hedge the risk of interest rate fluctuation of nonconvertible bonds (69th, 70th, 71st and 72nd tranches), the Company entered into the interest rate swap contracts for nonconvertible bonds payable.

On September 14, 2007 the Company issued five-year unsecured exchangeable bonds amounting to NT\$2,500,000 thousand (US\$77,089 thousand), with 0% coupon rate and maturity on September 14, 2012. The bond is repayable in lump sum on maturity at a 2.512% interest rate. Under the Statement of Financial Accounting Standards No. 36 - "Financial Instruments: Disclosure and Presentation", the Company recognized the exchangeable call and put options and the liability on these bonds as separate assets (Note 6) and liabilities.

Other bond issuance terms are as follows:

a. Exchangeable period:

The bondholders can exchange their bonds for Asia Cement Corporation's (ACC) shares under the bond terms at any time between October 15, 2007, the day after the issuance date, and September 4, 2012, the 10th day before the maturity date, except during the period starting from (a) the third day before the ex-right date of stock dividend issuance, (b) the third day before the ex-right date of cash dividend issuance, (c) the third day before the ex-right date of new share issuance, or (d) the third day before the ex-right date of capital decrease, until the effective date of dividend or new share distribution or of capital decrease. In addition, bondholders cannot exchange bonds for ACC's shares in the period for which this exchange is prohibited by law.

b. Exchange price

- 1) The exchange price was NT\$57.88 (US\$2.00) per share on the issuance date.

- 2) The exchange price of the issued bonds will be adjusted in any one of these situations: (a) if the convertible securities issued by ACC are exchanged into common stock; (b) if the common shares issued by ACC increase because of new share issuance for cash, appropriation of stock dividends from retained earnings, transfer of stock dividends to common stock from additional paid-in capital, stock bonus of employees, new share issuance due to mergers, stock splits, issuance of overseas depositary receipts; etc.; (c) if securities with conversion rights or stock rights have a lower conversion or exercise price than the market price of ACC's stocks; (d) if the number of ACC's common shares decreases for reasons other than the write-off of treasury shares; or (e) if the ratio of cash dividends to the market value of the common stock is higher than 1.5%. The original exchange price of NT\$57.88 (US\$1.77) was unchanged as of December 31, 2007.

c. Call option:

If the closing price of ACC's shares on the Taiwan Stock Exchange for each of the 30 consecutive trading days is at least 150% of the exchange price between October 15, 2007, the 30th day after the ACC's share issuance date, and August 5, 2012, the 40th day before the maturity date of the exchangeable bond, the Company may redeem all the outstanding bonds at their principal amount within 30 trading days after this increase in closing price by sending to the bondholders a registered redemption notice, which is valid for one month from the date of the notice. However, if the bond principal amount is less than NT\$250,000 thousand (US\$7,709 thousand, 10% of the principal amount) the Company may redeem the outstanding bonds at any time after this decrease by also using the registered redemption notice.

d. Put option:

Bondholders can require the Company to redeem their holdings at 100% of the principal amount on September 14, 2010, three years after the issuance date. The Company should redeem the bonds within five trading days after the bondholders' notifying the Company of their request for bond redemption.

- e. As of December 31, 2007, the amount of the outstanding exchangeable bonds, i.e., not yet exchanged into ACC's common shares, was still NT\$2,500,000 thousand (US\$77,089 thousand).

The Company made a two-part bond issuance, with the first issuance of three-year unsecured bonds on October 31, 2007. The bonds have an aggregate face value of NT\$800,000 thousand (US\$24,669 thousand), with each unit having a face value of NT\$1,000 thousand (US\$31 thousand). The bonds are repayable in lump sum on maturity, with 2.62% interest calculated and paid annually.

The Company made the second issuance on November 22, 2007. The bonds have an aggregate face value of NT\$2,000,000 thousand (US\$61,671 thousand), with each unit having a face value of NT\$1,000 thousand (US\$31 thousand). The bonds are repayable in lump sum on maturity, with 2.80% interest calculated and paid annually.

Yuan Ding Investment issued five- and seven-year nonconvertible bonds (6th tranche) on July 23 to 27, 2001, which have aggregate face values of NT\$1,000,000 thousand (US\$30,836 thousand) and NT\$1,000,000 thousand (US\$30,836 thousand), respectively, and each unit having a face value of NT\$1,000 thousand (US\$31 thousand). Redemptions are at a percentage of the face amount of the bonds, as follows: Type I (five-year) bond were due and paid, type II (seven-year) bond - 80% in July 2005 and 20% in July 2007, with interest rates of 4.0%, compounded annually.

Yuan Ding Investment issued five-year nonconvertible bonds (7th tranche) on July 8 to 9, 2002. These bonds have aggregate face values of NT\$1,000,000 thousand (US\$30,836 thousand), NT\$500,000 thousand (US\$15,418 thousand) and NT\$800,000 thousand (US\$24,669 thousand), with each unit having a face value of NT\$1,000 thousand (US\$31 thousand), semiannual interest of 3.7165% (NT\$1,000,000 thousand and NT\$500,000 thousand) and annual interest of 3.775% (NT\$800,000 thousand). Redemption are at a percentage of the face amount of the bonds, as follows: Type I (NT\$1,000,000 thousand) and Type II (NT\$500,000 thousand) - 15% in January 2006, 35% in January 2007, and 35% in July 2007; Type III (NT\$800,000 thousand) - 100% in 2007. Type I, Type II, and Type III bonds were paid and due as of December 31, 2007.

Yuan Ding Investment issued five-year nonconvertible bonds (8th tranche) on July 28 to 31, 2003. These bonds have aggregate face values of NT\$200,000 thousand (US\$6,167 thousand), NT\$200,000 thousand (US\$6,167 thousand), NT\$300,000 thousand (US\$9,251 thousand) and NT\$300,000 thousand (US\$9,251 thousand), with each unit having a face value of NT\$1,000 thousand (US\$31 thousand). They are repayable in lump sum on maturity, with 1.23% interest calculated and paid annually.

Yuan Ding Investment issued five-year nonconvertible bonds (9th tranche) on June 10, 2004. These bonds have an aggregate face value of NT\$500,000 thousand (US\$15,418 thousand) and NT\$500,000 thousand (US\$15,418 thousand), with each unit having a face value of NT\$10,000 thousand (US\$308 thousand). They are repayable in one lump sum on maturity, with 0% interest quarterly calculated and paid semiannually.

To hedge the risk of interest rate fluctuations of nonconvertible bonds (9th tranche), Yuan Ding Investment entered into the interest rate swap contracts for nonconvertible bonds payable.

Yuan Ding Investment issued three-year nonconvertible bonds (1st tranche) on January 20, 2005. These bonds have aggregate face values of NT\$500,000 thousand (US\$15,418 thousand), NT\$500,000 thousand (US\$15,418 thousand) and NT\$500,000 thousand (US\$15,418), with each unit having a face value of NT\$10,000 thousand (US\$308 thousand), annual interest of 1.984%, 1.985% and 1.986%, respectively and paid annually.

Yuan Ding Investment issued five-year nonconvertible bonds (2nd tranche) on June 13 to 16, 2005. These bonds have aggregate face values of NT\$500,000 thousand (US\$15,418 thousand), NT\$500,000 thousand (US\$15,418 thousand), NT\$500,000 thousand (US\$15,418 thousand) and NT\$500,000 thousand (US\$15,418 thousand), with each unit having a face value of NT\$10,000 thousand (US\$308 thousand), annual interest of 2.01% and paid annually.

Yuan Ding Investment issued three-year nonconvertible bonds (3rd tranche) on January 16, 2006. These bonds have aggregate face values of NT\$1,000,000 thousand (US\$30,836 thousand), with each unit having a face value of NT\$1,000 thousand (US\$31 thousand), annual interest of 2.0455% and paid annually.

Yuan Ding Investment issued three-year nonconvertible bonds (4th tranche) on June 22, 2006. These bonds have aggregate face values of NT\$800,000 thousand (US\$24,669 thousand), with each unit having a face value of NT\$1,000 thousand (US\$31 thousand), annual interest of 2.29% and paid annually.

Yuan Ding Investment issued five-year nonconvertible bonds (5th tranche) on October 11, 2006. These bonds, which are repayable annually, have an aggregate face value of NT\$2,000,000 thousand (US\$61,671 thousand), with each unit having a face value of NT\$1,000 thousand (US\$31 thousand) and annual interest of 2.30%. Maturity will be in 2010 and 2011, i.e., in two batches at NT\$1,000,000 thousand (US\$30,836 thousand) each.

Far EasTone's issuance of domestic bonds is summarized as follows:

a. Domestic unsecured bonds - 2nd - Far EasTone

These are five-year domestic unsecured bonds issued at par value from March 28, 2003 to April 3, 2003. The total face value of the bonds is NT\$1,470,000 thousand (US\$45,328 thousand), with a face value of NT\$1,000 thousand (US\$31 thousand) and interest rate of 2.6% in the first year and 3.2% minus USD six-month LIBOR rate from the second year to maturity, payable semiannually.

b. Domestic unsecured bonds - 3rd - Far EasTone

Three-year, four-year and five-year domestic unsecured bonds were issued at par value on December 12, 2003. The total face value of the bonds is NT\$3,000,000 thousand (US\$92,507 thousand), with a face value of NT\$5,000 thousand (US\$154 thousand) and annual interest rates of 1.83% (three-year bonds) and 1.92% (four-year bonds). The interest rate for five-year bonds is 5.2% minus USD six-month LIBOR rate if the LIBOR rate is greater than 1.05%; otherwise, the interest is at the LIBOR rate plus 1%, payable semiannually. Far EasTone should redeem the full amount when the bonds become due in 2006, 2007 and 2008. Far EasTone already repaid NT\$900,000 thousand (US\$27,752 thousand) on December 12, 2007 and 2006, respectively.

On January 4, 2007, a Company subsidiary, Far Eastern Construction Co., Ltd., entered into a NT\$4,000,000 thousand (US\$123,343 thousand) credit agreement with China Trust and seven other financial institutions. Far Eastern Construction Co., Ltd. mortgaged its land (Ban Ciao - New Section No. 9) amounting to NT\$4,800,000 thousand (US\$148,011 thousand) as first mortgage to the creditor banks. The agreement terms are as follows:

	<b>Credit Line</b>	<b>Period</b>	<b>Interest Rate</b>	<b>Redemption</b>
A	NT\$2,000,000 thousand (US\$ 61,671 thousand)	Three or six months after use of the credit	Reference interest rate plus 0.35%-0.40%	Revolving credit within the period, and redemption at lump sum on maturity
B	NT\$1,000,000 thousand (US\$ 30,836 thousand)	One year after use of the credit	Reference interest rate plus 0.30%	Revolving credit within the period, and redemption at lump sum on maturity
C	NT\$1,000,000 thousand (US\$ 30,836 thousand)	Three or six months after use of the credit	Reference interest rate plus 0.35%-0.40%	Not revolving credit within the period, and redemption at lump sum on maturity

Note: The reference interest rate is based on Taiwan's second market 90 days' commercial paper fixing rate on page 6165 of the monitor at 11:00 AM of Telerate.

As of December 31, 2007, FETL and its subsidiaries had unused credit lines aggregating NT\$55,017,164 thousand (US\$1,696,490 thousand), including NT\$1,800,000 thousand (US\$55,504 thousand) shared with Yuan Ding Investment Corp.

## 22. MATURITY ANALYSIS OF ASSETS AND LIABILITIES

The contract-related assets and liabilities of Far Eastern Construction Co., Ltd. and Far Eastern General Contractor Inc. are classified as current or noncurrent depending on the operating cycle.

## 23. STOCKHOLDERS' EQUITY

Under government regulations, capital surplus from equity-method investments cannot be used to offset a deficit or be capitalized. In addition, capital surplus (including both paid-in capital in excess of par value and that arising from business combination and treasury stock) may be used to offset a deficit or transferred to capital as a stock dividend, with the transfer to be made within prescribed limits only.

The Company's Articles of Incorporation provide that a portion of annual net income, less 10% legal reserve and any deficit, together with prior years' unappropriated earnings, may be retained on the basis of operating requirements, and the remainder should be distributed as follows:

	%
a. Dividends	60.0
b. Bonus for stockholders	33.0
c. Bonus for employees	4.0
d. Remuneration for directors and supervisors	<u>3.0</u>
	<u>100.0</u>

All appropriations are approved by the stockholders in the following year and given effect to in the financial statements of that year. The Company's dividend policy takes into account future capital expenditure outlays and cash requirements resulting from any changes in tax regulations. For financing these capital expenditures, a portion of the earnings may be retained. The remaining earnings may then be distributed as stock and cash dividends, and the cash dividends should be at least 10% of total dividends.

Under the regulations of the Securities and Futures Commission, the Company appropriates special reserve equivalent to the total of the net debit balances of each stockholders' equity account - except treasury stock - as of the balance sheet date. The special reserve is adjusted to reflect changes in the total net debit balances of the appropriate accounts.

Under the Company Law, legal reserve should be appropriated until the reserve equals the Company's paid-in capital. This reserve may be used to offset a deficit. Also, when the reserve has reached 50% of the Company's paid-in capital, up to 50% thereof may be transferred to capital.

The appropriation and distribution of the 2006 and 2005 earnings were approved by the stockholders on June 21, 2007 and June 13, 2006, respectively.

	New Taiwan Dollars			
	Appropriation and Distribution		Dividend Per Share (Dollars)	
	2006	2005	2006	2005
Legal reserve	\$ 829,288	\$ 820,944		
Cash dividend	5,654,807	4,103,633	\$1.3	\$1.0
Stock dividend	1,304,956	2,462,180	0.3	0.6
Remuneration of directors and supervisors	224,508	211,800		
Bonus of employees	<u>299,345</u>	<u>282,401</u>		
	<u>\$ 8,312,904</u>	<u>\$ 7,880,958</u>		
U.S. Dollars (Note 4)				
	Appropriation and Distribution		Dividend Per Share (Dollars)	
	2006	2005	2006	2005
	\$ 25,572	\$ 25,314		
Cash dividend	174,371	126,538	\$0.04	\$0.03
Stock dividend	40,240	75,923	0.01	0.02
Remuneration of directors and supervisors	6,923	6,530		
bonus of employees	<u>9,230</u>	<u>8,708</u>		
	<u>\$ 256,336</u>	<u>\$ 243,013</u>		

As of December 31, 2007, stock dividend of NT\$1,304,956 thousand (US\$40,240 thousand) was included in stock dividend to be distributed. The effective date of this distribution is August 31, 2007 and it has registered for changes on September 19, 2007.

Had the above bonuses for employees and directors been distributed in cash and retroactively charged to net income in 2006 and 2005, the basic earnings per share (after tax) would have decreased from NT\$1.92 (US\$0.06) to NT\$1.80 (US\$0.06) for 2006 and from NT\$2.04 (US\$0.06) to NT\$1.92 (US\$0.06) for 2005.

As of March 10, 2007, the date of the accompanying auditors' report, the board of directors had not approved the proposal on the distribution of the 2006 earnings. Information on the appropriation of earnings can be accessed online through the Market Observation Post System on the Web site of the Taiwan Stock Exchange Corporation (<http://mops.tse.com.tw>).

Under the Income Tax Law, individual ROC resident stockholders are entitled to income tax credits upon the distribution of dividends from earnings generated starting January 1, 1998. The income tax credit is based on a creditable tax ratio determined on the date of dividend distribution.

## 24. INCOME TAX

Under pronouncement No. 9145839 issued by the Ministry of Finance, R.O.C. on Article 49 of the Financial Holding Company Act and Article 40 of the Business Mergers and Acquisitions Law (the "Law"), if a company carries out a merger/consolidation, division or acquisition in accordance with Articles 27 through 29 of this Law and the subsidiary's shares held by the Company are 90 percent or more of the total number of the subsidiary's issued shares, the company may opt, from after a year of acquiring the subsidiary's shares, to serve as taxpayer for both itself and the subsidiary (i.e., use the linked-tax system) and file a combined final business income tax return.

Since 2005, the Company adopted the linked tax system for tax filing with subsidiary Far Eastern Resources Development Co., Ltd. The Company and Far Eastern Resources Development Co., Ltd. were included in this tax group in 2006.

Certain income tax information is as follows:

	<b>New Taiwan Dollars</b>		<b>U.S. Dollars (Note 4)</b>

The tax credits will be accumulated until the date of dividend distribution. Upon dividend distribution, the ratio of the imputed tax credits to unappropriated earnings based on the prevailing ICA balance will be used by the Group for allocating tax credits to the respective companies' stockholders.

The Group used the tax rate of 25% to compute deferred tax as of December 31, 2006 and December 31, 2007.

e. The reexamination status of income tax returns is as follows:

- 1) The tax authorities assessed an additional tax on Far EasTone's income tax returns for 2000 to 2004. Far EasTone filed an appeal for the reexamination of its returns; nevertheless, it accrued the related tax.
- 2) The income tax returns through 2002 of the former KG Telecom had been examined by the tax authorities. However, KG Telecom had filed appeals for the reexamination of returns from 2000 to 2002 and nevertheless accrued the related tax.
- 3) ARCOA filed appeals for the reexamination of its 2003 and 2002 returns and nevertheless, it accrued the related tax.

- 4) For its unappropriated earnings of 1998 that FECC had declared and been examined by the tax authorities, FECC should pay an additional tax of about NT\$7,212 thousand (US\$222 thousand). FECC paid this amount in 2002 although it was unwilling to accept the authorities' assessment. It has then filed an administrative appeal. However, on August 10, 2006, the Supreme Administrative Court ruled in favor of the tax authorities, resulting in FECC's loss on this lawsuit.

## 25. FACTORING OF NONPERFORMING ACCOUNTS RECEIVABLE

Far EasTone and KG Telecom wrote off certain overdue/nonperforming accounts receivables. Under agreements signed in March 2007 and 2006, Far EasTone and KG Telecom factored these receivables, i.e., sold them without recourse, to an asset management company. Thus, Far EasTone and KG Telecom was no longer responsible for collecting these receivables.

Related information as of December 31, 2007 and 2006 were as follows:

Counter Party	Amount of Accounts Receivable Sold		Proceeds from Sale of Accounts Receivable	
	New Taiwan Dollars	U.S. Dollars (Note 4)	New Taiwan Dollars	U.S. Dollars (Note 4)
<u>Year ended December 31, 2007</u>

## 27. EARNINGS PER SHARE

The numerators and denominators used in calculating earnings per share (EPS) were as follows:

	New Taiwan Dollars						Earnings Per Share	
	Amounts (Numerator)			Shares in Thousands (Denominator)				
	Income Before Income Tax	Net Income		Shares in Thousands (Denominator)	Income Before Income Tax	Net Income		
<u>2007</u>								
Basic EPS	<u>\$ 11,273,814</u>	<u>\$ 11,367,097</u>		<u>4,480,347</u>	<u>\$ 2.52</u>	<u>\$ 2.54</u>		
<u>2006</u>								
Basic EPS	<u>\$ 8,309,973</u>	<u>\$ 8,337,183</u>		<u>4,480,347</u>	<u>\$ 1.85</u>	<u>\$ 1.86</u>		
U.S. Dollars (Note 4)								
	Amounts (Numerator)						Earnings Per Share	
	Income Before Income Tax			Shares in Thousands (Denominator)				
	Income Before Income Tax	Net Income		Shares in Thousands (Denominator)	Income Before Income Tax	Net Income		
<u>2007</u>								
Basic EPS	<u>\$ 347,635</u>	<u>\$ 350,512</u>		<u>4,480,347</u>	<u>\$ 0.08</u>	<u>\$ 0.08</u>		
<u>2006</u>								
Basic EPS	<u>\$ 256,243</u>	<u>\$ 257,082</u>		<u>4,480,347</u>	<u>\$ 0.06</u>	<u>\$ 0.06</u>		

The stock dividends distributed had been considered in calculating the 2006 basic EPS, which would resulted in the EPS before tax and after tax decrease from NT\$1.91 (US\$0.06) to NT\$1.85 (US\$0.06) and NT\$1.92 (US\$0.06) to NT\$1.86 (US\$0.06), respectively.

## **28. PENSION PLAN**

- a. Except for FETL, Far EasTone, KG Telecommunication Co., Ltd., KGEx.com, ARCOA Communication Co., Ltd., Yuan Cing Co., Ltd., Far EasTron, Q-Ware, Far Eastern Apparel Company, Oriental Resources Development Ltd., Yuan Faun Ltd., Yuan Cheng Human Resources Consultant Corp., Fu-Kwok Knitting & Garment Co., Ltd., Far Eastern Construction Co., Ltd., Far Eastern General Contractor Inc. and FETC in 2007 and 2006, these entities included in the consolidation have no pension plan. Under their government's regulations, subsidiaries incorporated in mainland China had recognized pension costs. Other holding companies have no pension plans because they do not have employees.
- b. The Labor Pension Act (the "Act") took effect on July 1, 2005. This Act provides for a defined contribution plan featuring a portable pension. Company employees who were subject to the Labor Standards Law before the enforcement of the Act were allowed to choose to remain to be subject to the pension mechanism under the Labor Standards Law or to be subject instead to the pension mechanism under the Act, with their service years accumulated before the enforcement of this Act to be retained. Those hired on and after July 1, 2005 are automatically subject to the Act.
- c. Based on the Act, the Company's monthly rate of contributions to the pension fund from July 1, 2005 is at 6% of monthly salaries and wages. The pension costs under the defined contribution plan in 2007 and 2006 were NT\$219,324 thousand (US\$6,763 thousand) and NT\$200,725 thousand (US\$6,189 thousand) respectively. The subsidiary, Far Eastern Tech-Info (Shanghai) Ltd., under its government's regulations had recognized pension costs of NT\$4,256 thousand (US\$131 thousand) and NT\$3,320 thousand (US\$102 thousand) in 2007 and 2006, respectively.
- d. The Company, Far EasTone, KG Telecom, KGEx.com, ARCOA, Yuan Cing, Far EasTron, Q-Ware, Far Eastern Apparel Co., Ltd., Oriental Resources Development Ltd., Yuan Faun Ltd. and Yuan Cheng Human Resources Consultant Corp., Fu Kwok Garment Manufacturing Co., Far Eastern Construction Co., Ltd., Far Eastern General Contractor Inc. and Far Eastern Electronic Toll Collection Co., Ltd. in 2007 and 2006, have a defined benefit pension plan for all regular employees, as required under the Labor Standards Law. These companies accrue pension costs based on actuarial calculations and make monthly contributions, at 2% of salaries and wages, (but 3.4% for Far Eastern Apparel Co., Ltd., 4% for Ding Ding Management Consulting Ltd. and the Company and 0% for Yuan Faun Ltd. and Yuan Cheng Human Resources Consultant Corp.) to their respective pension funds, which are administered by each pension plan committee and deposited in each committee's name in the Bank of Taiwan (the former appointed Central Trust of China was incorporated into Bank of Taiwan in 2007).

For a Company subsidiary, Far Eastern Apparel Co., Ltd. (FEAC), some of the employees who retired in 2007 and 2006 used to work for the Company. Thus, the Company paid FEAC NT\$1,780 thousand (US\$55 thousand) in 2007 and NT\$3,532 thousand (US\$109 thousand) in 2006 for the accrued pension based on the retirees' service periods. FEAC recorded the Company's payment as other income and recorded its (FEAC) own pension payments as other expense.

Other information on the defined benefit pension is as follows:

- a. Net pension cost consisted of:

2007

	<b>FETL</b>	<b>Far EasTone (Including KG Telecom, KGEx.com Co., Ltd.)</b>	<b>Far Eastern Apparel Company</b>	<b>Oriental Resources Development Ltd.</b>

				(Concluded)

In April 2004, the Yuan Ding Investment Corp. furnished the common shares of Far EasTone to be used by the Taipei District Court in withdrawing the order for provisional seizure of the property of Pacific SOGO Department Store Co., Ltd. requested by Cathay United Bank. As of December 31, 2007 and 2006, the Yuan Ding Investment Corp. had furnished 165,000 thousand common shares of Far EasTone for the use by the Taipei District Court, the amount were NT\$3,227,400 thousand (US\$99,519 thousand) and NT\$3,130,050 thousand (US\$96,517 thousand), respectively.

### **31. COMMITMENTS AS OF DECEMBER 31, 2007**

- a. Unused letters of credit aggregated about NT\$3,805,768 thousand (about US\$117,353 thousand).
- b. Unpaid building construction and equipment installation contracts aggregated NT\$3,460,267 thousand (about US\$106,700 thousand), and the Group was under contracts to acquire cellular phone equipment for NT\$449,129 thousand (US\$13,849 thousand).
- c. Unsettled cotton futures contracts amounted to NT\$610,252 thousand (US\$18,818 thousand).
- d. Project contracts already signed by Far Eastern General Contractor Inc. amounted to NT\$18,887,880 thousand (US\$582,420 thousand).
- e. Guarantees for related parties: Schedule G (attached).
- f. The tax authorities of Taipei County imposed a land tax from 1999 to 2003 on the land in Banciao and penalized the Company with a triple fine, totaling NT\$252,442 thousand (US\$7,784 thousand), because the authorities believed that this land, which FETL registered as a property for manufacturing purposes, was being used for general purposes instead and that FETL did not register the change in purpose of the land. The Company disagreed with the tax authorities' decision and applied for reexamination on December 27, 2004. However, after the reexamination, the tax authorities did not reverse their decision. Thus, the Company filed a lawsuit against the authorities on June 1, 2005. Though the result of this case is uncertain, the Company already accrued expense for this case in 2005. On January 18, 2006, the Company filed an appeal with the Taipei High Administrative Court and still lost the lawsuit. The Company appealed to the Supreme Administrative Court on January 3, 2007. The Supreme Administrative Court rejected this appeal on May 31, 2007. The Company applied for reexamination on July 13, 2007. As of December 31, 2007, this case was still pending before the court. Nevertheless, the Company paid all its tax fines on August 30, 2007.

- g. The Group's minimum rental payments for the next five years under operating lease agreements are summarized as follows:

Year	New Taiwan Dollars	U.S. Dollars (Note 4)
2008	\$ 2,815,984	\$ 86,833
2009	2,836,936	87,479
2010	2,877,520	88,730
2011	2,935,059	90,504
2012	3,012,078	92,879

- h. Chang Ming-chian, a former director of PLTIC (an equity-method investee of the Company), filed a lawsuit, claiming that the resolutions passed by PLTIC's stockholders in their general meetings on May 9, 2002 and September 21, 2002 were not valid and that the stockholders' rights of FEDS and FETL on PLTIC do not exist. Chang also claimed that PLTIC should pay him NT\$5,000 thousand (US\$154 thousand) in salary and plus interest. The PLTIC asserted that Chang was not its stockholder and his lawsuit was thus groundless. PLTIC added that its board of directors convene PLTIC's general stockholders' meeting and they register with the Ministry of Economic Affairs all resolutions passed at the stockholders' meetings in compliance with legal requirements. The FETL assessed that the possibility of losing this case is low. This case is now under judicial review by the Taiwan Taipei District Civil Court.
- i. Under the NCC's policy effective April 1, 2007, Far EasTone had provided performance guarantees amounting to NT\$450,000 thousand (US\$13,876 thousand) to KG Telecom and NT\$45,000 thousand (US\$1,388 thousand) to KGEx for prepaid cards and international direct dialing calling cards already bought by customers. KG Telecom had also provided Far EasTone a similar guarantee amounting to NT\$850,000 thousand (US\$26,210 thousand).
- j. Far Eastern Electronic Toll Collection Co., Ltd. was entrusted by the Taiwan Area National Freeway Bureau to collect electronic tolls on freeways and to sign a third-party benefit trust contract with Far Eastern International Bank to manage the tolls collected. The trust property for this agreement amounted to NT\$461,436 thousand (US\$14,229 thousand) as of December 31, 2007.
- k. Under the "Anticorruption Statute," the Taiwan Taipei District Court (the "Court") charged Song Nai Wu, a certain official of the ROC Ministry of Transportation and Communications, and Cai Jin Hong, ex-senior manager of Systec Corp. (a cost-method investor of Far Eastern Electronic Toll Collection Co., Ltd., or FEETC), with breaching confidentiality of information and accepting bribes while examining the "Private Institutions' Participation in the Freeway Electronic Tolls Collection System Construction and Operation Projects." However, the Court states on August 31, 2006 that, although Cai Jin Hong was employed by Systec Corp. and his behavior was suspected of being in violation of the law, his behavior was irrelevant to the whole examination in line with the FEETC's bidding for a toll collection project. In addition, although Cai Jin Hong was involved in policy formation and construction design in the prior stage of the ETC, his involvement was irrelevant to the bidding and examining procedures conducted by TANFB during the latter stage of ETC. Since the court announcement had no effect on ETC's bidding and examining procedures, TANFB announced a second bidding for the ETC project on December 5, 2006. FEETC was again selected as the best qualified candidate, of which the fact sufficiently supported that TANFB agreed on the verdict that the court announcement had no effect on ETC's bidding and examining procedures. FEETC's participation in the second bidding for the ETC project was totally legal. Additionally, FEETC reaffirmed that its participation was in compliance with the law and regulations set by the authorities and had no illegalities. But whatever the verdict, FEETC's completion of the ETC projection will not be affected.

## 32. SUBSEQUENT EVENTS

On March 6, 2008, a subsidiary, Yuan Tone Investment Co., Ltd., acquired nine thousand common shares issued for cash by Sino Belgium (Holding) Limited, based in Bermuda. The purchase price of each share was US\$2,000, and the total share purchase amounted to NT\$556,706 thousand (US\$17,166 thousand).

## 33. FINANCIAL INSTRUMENTS

The Group adopted ROC Statement of Financial Accounting Standards (SFAS) No. 34 - "Accounting for Financial Instruments" on January 1, 2006. Thus, some derivatives were not included in the consolidated financial statements in 2005 (Note 3).

The methods and assumptions used in estimating fair values are as follows:

- 1) Short-term instruments: The carrying values of short-term instruments reported in the balance sheet approximate the fair values of these assets because of the short maturities of these instruments. Including cash, notes and accounts receivable, notes and accounts from related parties, other financial assets - current, short-term bank loans, commercial paper, notes and accounts payable, payable to related parties, accrued expense and payable to supplies of machinery and equipment.
- 2) If quoted market prices are available, these are used as fair values of financial instruments at fair value through profit or loss, available-for-sale financial assets and held-to-maturity financial assets.

If quoted market prices are available, these are used as fair values of derivatives. Otherwise, the fair value is evaluated by the Group using the same estimates and assumptions used by other market participants (e.g., banks or derivative sellers) to value the derivatives. These estimates and assumptions are available to the Group.

The Group uses the exchange rate quotations of the Reuters (or the Associated Press) to calculate the fair value of each interest rate swap and forward contract based on the net cash flows and the exchange rates, respectively.

- 3) The fair values of financial assets carried at cost - noncurrent, bonds carried at amortized cost - current and equity-method investments in stocks with no quoted market prices cannot be reasonably measured since the quoted market prices are not available.
- 4) Fair values of bonds payable, lease payable and long-term loans (all including current portion) are measured at the present values of expected cash flows, which are discounted at the interest rates for bank loans with similar maturities.
- 5) Refundable deposits and guarantee deposits (including the current portion) receivable are recorded at their carrying values because their fair value is similar to carrying value.

- c. The fair values of financial assets and financial liabilities, which were determined at their quoted prices in an active market or at estimated prices, were as follows:

	December 31 (in New Taiwan Dollars)				December 31 (in U.S. Dollars) (Note4)			
	Quoted Price		Estimated Price		Quoted Price		Estimated Price	
	2007	2006	2007	2006	2007	2006	2007	2006

- d. As of December 31, 2007 and 2006, financial assets with fair value risk from interest rate fluctuations amounted to NT\$19,124,250 thousand (US\$589,709 thousand) and NT\$14,116,971 thousand (US\$435,306 thousand), respectively, while financial liabilities with fair value risk from interest rate fluctuations amounted to NT\$78,795,939 thousand (US\$2,429,724 thousand) and NT\$57,674,768 thousand (US\$1,778,439 thousand), respectively. As of December 31, 2007 and 2006, financial assets with cash flow risk from interest rate fluctuations amounted to NT\$5,519,193 thousand (US\$170,188 thousand) and NT\$3,117,377 thousand (US\$96,126 thousand), respectively, while financial liabilities with cash flow risk from interest rate fluctuations amounted to NT\$13,055,609 thousand (US\$402,578 thousand) and NT\$12,336,613 thousand (US\$380,407 thousand), respectively.

e. Financial risks

1) Market risk

Forward exchange contracts and currency option contracts

The Group uses forward exchange contracts and currency option contracts to hedge the effect of adverse exchange rate fluctuations on net assets or net liabilities (Note 6).

Interest rate swap contracts and cross-currency swap contracts

The Company used interest rate swap contracts to hedge fluctuations of interest rates of corporate bonds (69th, 70th, 71th and 72nd tranches) in the years ended December 31, 2007 and 2006. Yuan Ding Investment entered into interest rate swap contracts to hedge interest rate fluctuations of corporate bonds -9th tranche. Far EasTone used interest rate swap contracts to hedge the effect of interest rate fluctuations on its obligations with floating interest rates. The contracts are settled at net amounts. Thus, the market risk is not material.

KG Telecom used cross-currency swap contracts to hedge the effect of interest rate fluctuations and exchange rate fluctuations on its foreign-currency denominated obligations with floating interest rates. The contracts are settled at net amounts. Thus, the market risk is not material.

Cotton futures contracts

The Group uses certain cotton futures contracts to hedge fluctuations of cotton prices (Note 6).

## 2) Credit risk

The Company and its subsidiaries are exposed to credit risk, i.e., counter-parties' default on contracts. Factors affecting credit risks are the concentration of credit risk, components of derivative financial instruments, contract amounts and other receivables on financial instruments used by the Group.

The analysis of the maximum exposure to credit risks on financial instruments held by the Group is as follows (fair values of collaterals excluded):

	December 31			
	2007	Maximum Exposure of Credit Risk	2006	Maximum Exposure of Credit Risk
Carrying Value	Carrying Value	Carrying Value	Carrying Value	Carrying Value
Available-for-sale financial assets	NT\$ 1,950,510 US\$ 60,145	NT\$ 1,950,510 US\$ 60,145	NT\$ 1,026,008 US\$ 31,638	NT\$ 1,026,008 US\$ 31,638

The Group's maximum exposure to credit risk is equal to fair value. The Group conducts transactions only with selected financial institutions and corporations with good credit ratings. Thus, management does not anticipate any material losses resulting from default on contracts.

## 3) Liquidity risk

The exchange rates of forward exchange contracts and currency option contracts, interest of interest rate swap contracts and prices of cotton futures contracts are fixed and certain. In addition, the Group has sufficient operating capital to meet cash flow requirements. Thus, the Group does not have liquidity risk. However, financial assets carried at cost and equity-method investments have no active market; thus, material liquidity risk on these assets and investments is anticipated.

Some equity-method investments had no quoted prices in an active markets; thus, these investments could expose the Group to material liquidity risks.

KG Telecom and ARCOA invested in mutual funds that have quoted prices in active markets and can be sold immediately at prices close to their fair values. However, KG Telecom also invested in domestic private fund and equity instruments with no quoted prices in an active market; thus, these investments could expose KG Telecom to material liquidity risks. Moreover, KG Telecom entered into cross-currency swap to hedge cash flow risk.

ARCOA also invested in financial bonds and equity instruments with no quoted prices in an active market; thus, these investments could expose ARCOA to material liquidity risks.

## 4) Cash-flow risk from interest rate fluctuations

Far EasTone and its subsidiaries has short-term and long-term liabilities with floating interest rates. As a result, the effective interest rates on these loans will change as the market interest rates change.

f. Cash flow hedge

The Group uses interest rate swap and forward contract to hedge overall fluctuations on interest rates and exchange rates.

Hedged Items	New Taiwan Dollars					Expected Period for Realization of Gains or Losses

#### 34. ADDITIONAL DISCLOSURES REQUIRED BY THE SECURITIES AND FUTURES BUREAU

- a. Important transactions and b. information on the Group's investees.
  - 1) Financing provided: Schedule F (attached).
  - 2) Endorsement/guarantee provided: Schedule G (attached).
  - 3) Marketable securities and investments in share of stock held: Schedule H (attached).
  - 4) Securities acquired and disposed of at costs or prices of at least NT\$100 million or 20% of the capital stock: Schedule I (attached).
  - 5) Acquisition of individual real states at costs of at least NT\$100 million or 20% of the capital stock: Schedule J (attached).
  - 6) Disposal of individual real state at prices of at least NT\$100 million or 20% of the capital stock: None.
  - 7) Total purchases from or sales to related parties amounting to at least NT\$100 million or 20% of the capital stock: Schedule K (attached).
  - 8) Receivables from related parties amounting to at least NT\$100 million or 20% of the capital stock: Schedule L (attached).
  - 9) Names, locations, and related information of investees on which the Company exercises significant influence: Schedule M (attached).
  - 10) Derivative financial transactions: Note 33.

b. Investments in Mainland China

- 1) Investee company name, the description of the primary business activity and products, issued capital, nature of the relationship, capital inflow or outflow, ownership interest, gain or loss on investment, amounts received on investment, and the limitation on investment: Schedule N and N-1 (attached).
  - 2) Significant direct or indirect transactions with the investee company, prices, payment terms, and unrealized gain or loss: None.
- c. Additional disclosure for consolidated financial statements:
- 1) Significant transactions between the Company and its subsidiaries and among subsidiaries: Schedule O.
  - 2) Reasons, amounts, number of shares held and subsidiaries' names, which owns FETL's shares: None.

**35. SEGMENT INFORMATION**

- a. Industry information. Industry information is shown in Schedules P and P-1.
- b. Geographic information. There were no major operations in foreign countries in 2007 and 2006.
- c. Export sales

The export sales of the Company and its subsidiaries were less than 10% of consolidated net sales.

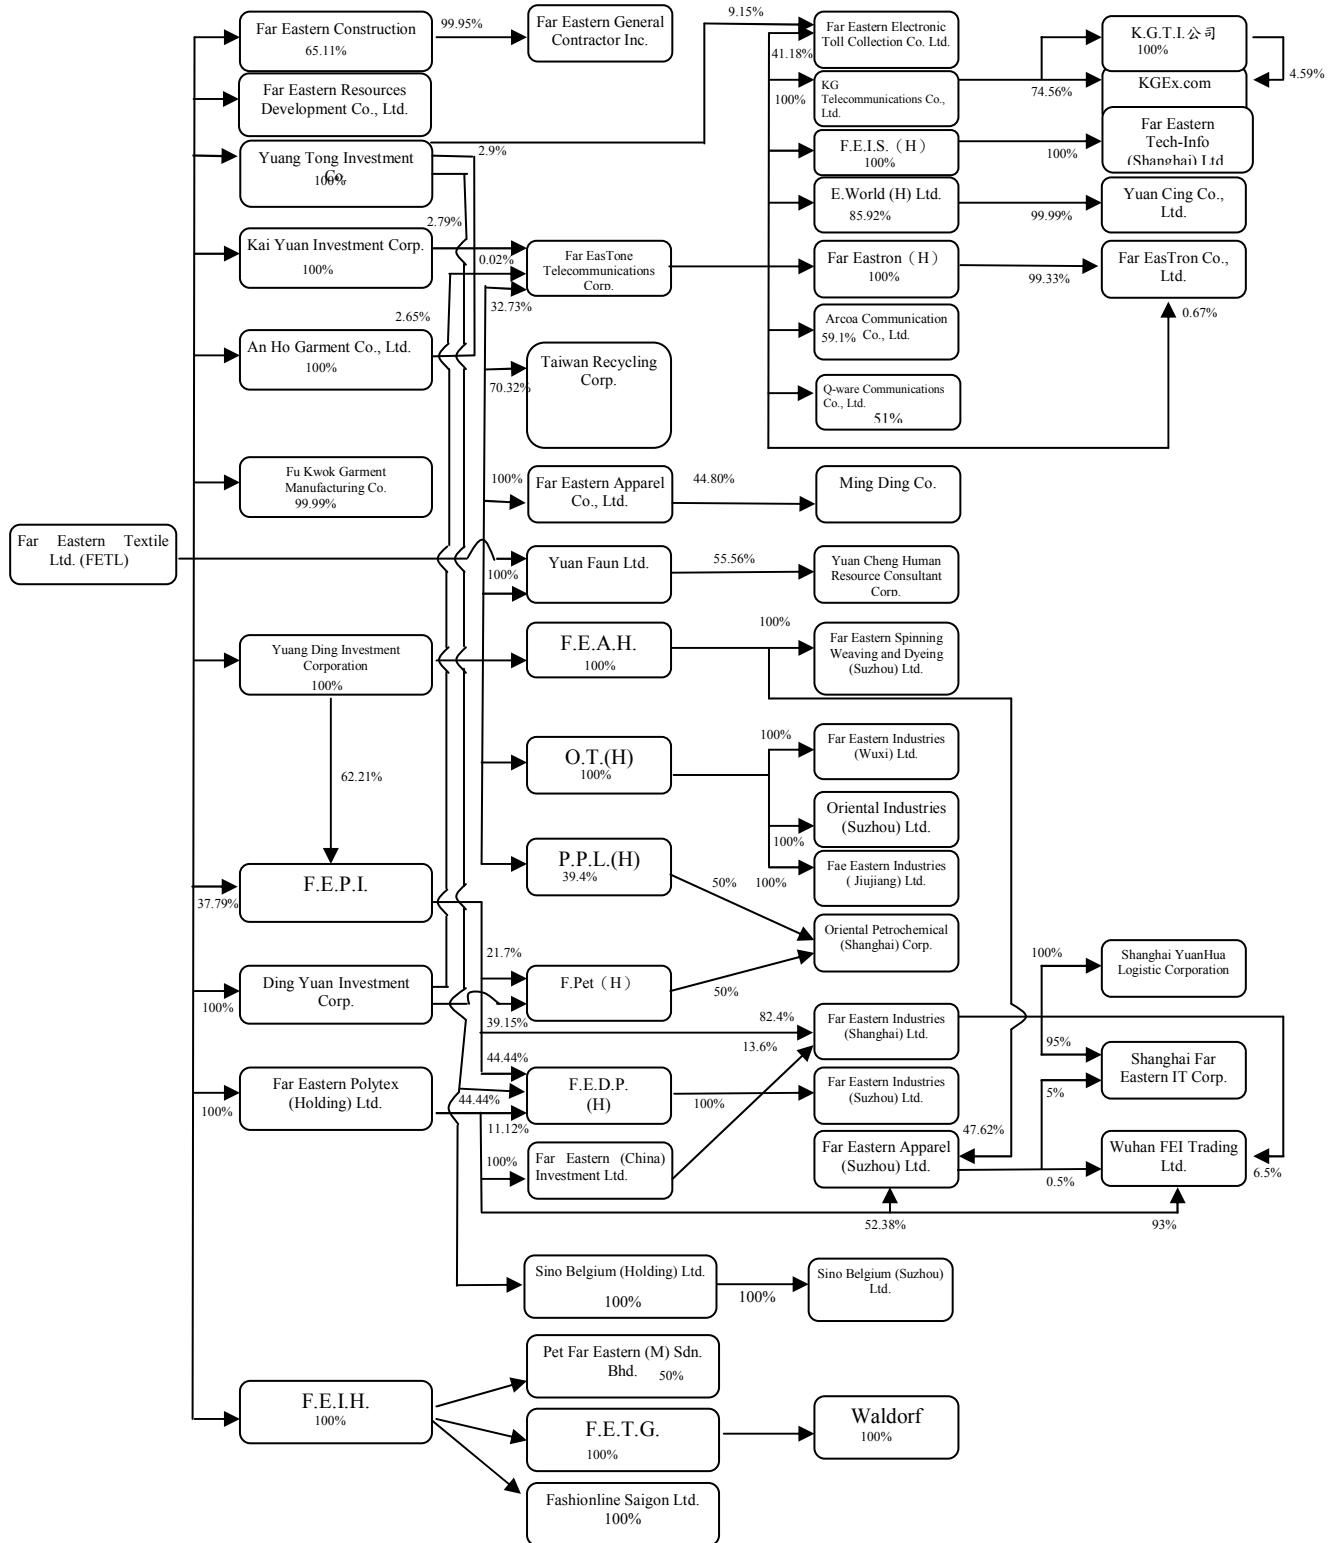

- d. Major customers

There were no major customers in 2007 and 2006.

Notes: A. Subsidiary with common stock shares held directly or indirectly equivalent to or above 50%.

B. Equity-method investees.

C. Investee of an equity-method investee.

D. Investee of an equity-accounted investee of parent company.

E. Parent company.

F. The parent company of the parent company.

G. Collateral/guarantee is equivalent to 20% of the audited net value of the parent company as of December 31, 2007.

H. Collateral/guarantee is equivalent to 50% of the net value of the guarantor as of December 31, 2007.

I. Limit is computed using the net value of the guarantor as of December 31, 2007.

J. Limit is computed using the net value of FETL as of December 31, 2007.

K. The upper limit is equivalent to the net value of the Company, except for the subsidiary (parent), for which the upper limit is equivalent to 300% of the net value as of December 31, 2007.

L. The upper limit is equivalent to the net value of the Company, except for the subsidiary, for which the upper limit is equivalent to 300% of the net value as of December 31, 2007.

M. Collateral/guarantee is equivalent to 50% of the net value of FETL as of December 31, 2007.

N. Collateral/guarantee is equivalent to 300% of the net value of the guarantor as of December 31, 2007.

O. Collateral/guarantee is equivalent to the net value of Far Eastern Textile Ltd. as of December 31, 2007.

P. This is related to each stockholder of each company. The guarantee is based on each stockholder's percentage of ownership of the investee. Every stockholder promises to share in any losses on the guarantee based on the percentage of ownership of the investee. However, the marketable securities provided by Yang Ding Investment to Taipei District Court for Pacific Sogo Department Store Co., Ltd. were for a certain court case.

Q. The ratio calculation is in accordance with the Regulations Governing Lending of Funds and Marking of Endorsements/Guarantees by Public Companies.

R. Collateral/guarantee is equivalent to 50% of the net value of Far Eastern as of December 31, 2007.

S. Business relationship.

T. Limit is computed using the net value of the guarantor as of December 31, 2007.

U. Collateral/guarantee is equivalent to 200% of the net value of the guarantor as of December 31, 2007.

V. The investment relationship is based on guarantee of each stockholder's retention ratio.

Notes: A: The Far Eastern Textile Ltd. and subsidiaries operate principally in five segments: Polyester, spinning, weaving and dyeing and apparel; real estate development; investment; telecommunications; and construction.

B: Inter-division revenue from goods and services.

C: Represents revenue minus costs and operating expenses. Operating expenses include costs and expenses directly pertaining to an industry segment, i.e., excluding general, administrative and interest expenses.

D: Represents general, administrative and sales expenses that cannot be allocated to each division.

E: Represents tangible assets used by the industry segment, excluding:

a. Assets maintained for general corporate purposes;

b. Advances or loans to another industry segment; and

c. Long-term stock investments under the equity method.
